Tourism and Hospitality Innovations

Global sustainable trends in tourism accommodations are growing fast. Eco-based and nature-based resorts, outdoor camping and glamping concepts, and innovations in boutique hotels are on the rise. This unique programme in the Netherlands, Croatia and Spain, is all about hospitality innovation and includes a professional traineeship.

A unique 18-month multiple master's degree programme in **sustainable outdoor hospitality management**.

WITH WHOM?

- > This master's programme has been developed by Breda University of Applied Sciences (BUas), the University of Girona in Spain and the University of Rijeka in Croatia.
- > With this multiple-degree master's programme, you will receive three titles.

STUDY IN THE NETHERLANDS, CROATIA AND SPAIN

- > In the **first semester** in year 1 you will attend lectures at BUas together with the students of the Master Tourism Destination Management.
- > In the **second semester** you will go to the University of Rijeka to study on hospitality innovations in camping resorts. Furthermore, you will work at camping resorts in Croatia on sustainable business challenges in the fields of park design, stakeholder engagement, human resource management, concept design or strategic management.
- > After this semester you will **work as a trainee** in the hospitality industry and write a field research report. This offers the opportunity to work in high season and study in low season.
- > In the **third semester** in year 2 the programme is combined with the Master in Tourism Management and Planning at the University of Girona to deepen your academic and business management skills. The last part of the programme is writing your individual thesis.

WANT TO APPLY?

- > Applicants should have a bachelor's degree in a relevant field of study. For example in the field of tourism, hotel management, international business, facility management, economics, law, e-commerce, urban development, geography, social sciences, or finance.
- > You apply through BUas. For the full admission and English language requirements, check **BUas.nl**

Why this master's specialisation?

- + Specialising in tourism and hospitality innovations
- + Studying and conducting field research in three different countries
- + Three master's degrees after graduation

Improving the outdoor hospitality industry

"I believe this master's programme is a great opportunity as it combines multiple studies, and sustainability is a key topic in the industry. The staff were very helpful and supportive during the application process, and their passion and devotion to contribute to the improvement of the outdoor hospitality industry assured me that this is the right fit for me."
