

Application and Enrolment Regulations

Academic year 2024-2025

As established in the meeting of the Executive Board on: 13 July 2023

The assent of the BUas participation council was acquired on: 13 July 2023

English version available: yes

Document owner: MC&S

Introduction

These Application and Enrolment Regulations contain provisions regarding application, enrolment, payment of tuition fees and termination of enrolment. Furthermore, these regulations contain general conditions that apply to be allowed to participate in educational activities and make use of the facilities offered by Breda University of Applied Sciences. For the larger part, the regulations originate in the Higher Education and Research Act (WHW), which contains a large number of mandatory provisions that are applicable to these regulations.

The Application and Enrolment Regulations are part of the Students' Charter of Breda University of Applied Sciences. This Students' Charter sets out the rights and obligations of students, and consists of a general part pertaining to the institution and of specific parts pertaining to the various degree programmes. The Students' Charter is subject to alterations in laws and regulations.

The Application and Enrolment Regulations do not apply to participants of courses offered by Breda University of Applied Sciences. This category of persons can only be enrolled upon submission of a request to the academy director of the relevant degree programme, and upon their approval.

Chapter 1 General

Article 1.1 Definitions

The following definitions are used in these regulations:

Academic bachelor's programme	A WO degree programme as referred to in articles 7.3 and 7.3a paragraph 1 of the WHW. Upon completion of this WO programme, the student is awarded the title of Bachelor. Also see 'Degree Programme'.
Academic year	Period starting 1 September and ending 31 August of the following year as referred to in article 1.1 sub k WHW.
Academy	Organisational unit as referred to in article 10.3a WHW, which offers one or more degree programmes.
Academy director	Leading officer of an academy. The academy director bears final responsibility for the day-to-day running of an academy on the grounds of the duties and powers authorised to them by the Executive Board.
Accreditation	The quality mark that expresses that the quality of a degree programme has been assessed positively, as referred to in article 1.1 under s of the WHW.
Alien	A foreign national who does not have the Dutch nationality (yet).
Associate Degree programme	A programme as referred to in article 7.3 and 7.3a paragraph 2 of the WHW. Upon completion of this programme, the student is awarded an Associate Degree (Ad).
Degree programme	An interrelated whole of courses as referred to in article 7.3 of the WHW.
Dispute resolution committee	A student who feels their interests were damaged can lodge an appeal against a decision (or omission of it) by the Executive Board, to the dispute resolution committee of Breda University of Applied Sciences.
DUO	Agency for the Administration of Education.
Examinations Appeals Board	A judicial board established in accordance with article 7.60 of the WHW to which students or prospective students can appeal against decisions (or omission of them) as listed in article 7.61 of the WHW.
Executive Board	The governing and policy-making body of Stichting Breda University of Applied Sciences, as referred to in article 10.2 of the WHW in conjunction with articles 3 to 7 inclusive and article 17 of the articles of association of Stichting Breda University of Applied Sciences.
Final exam	The total of successfully completed examinations of the courses belonging to the degree programme, possibly supplemented with an investigation carried out by examiner(s) appointed by the board of examiners into the level of knowledge, understanding and skills of the student.

HBO bachelor's programme	A degree programme as referred to in articles 7.3 and 7.3a paragraph 2 of the WHW. Upon completion of an HBO programme, the student is awarded the title of Bachelor. Also see 'Degree programme'.
Institute	Breda University of Applied Sciences.
Institutional tuition fee	Tuition fee as referred to in article 7.46 of the WHW pertaining to enrolment as a student. These tuition fees are established by the Executive Board.
Main phase	The second part of a degree programme which follows the propaedeutic phase, as referred to in article 7.30 of the WHW.
Management and Administrative Regulations	A set of regulations in which the Executive Board has laid down how the management, administration and organisation of the institute is arranged, as referred to in article 10.3b of the WHW.
Master's programme	A degree programme as referred to in articles 7.3, 7.3a and 7.3b of the WHW. Upon completion of a master's programme, the student is awarded the title of Master. Also see 'Degree Programme'.
Previous education requirements	Requirements that an enrolling student should meet to be able to enrol in a programme of higher education in accordance with articles 7.23b through 7.30e inclusive of the WHW. See for current requirements the website of Breda University of Applied Sciences (www.buas.nl) or appendix 3 of these regulations.
Propaedeutic phase	The first phase of an HBO degree programme (60 credits) which is followed by the main phase, as referred to in article 7.8 paragraphs 2 and 4 of the WHW. This provision does not apply to the Associate degree.
Statutory tuition fee	Tuition fee as referred to in article 7.45 of the WHW pertaining to enrolment as a student. This tuition fee is indexed annually and established by the Minister.
Studielink	Online application for enrolment of and for Dutch higher education.
Study recommendation	Advice as referred to in article 7.8b of the WHW that is given to the student no later than the end of Year 1 of enrolment in the propaedeutic phase (or in the case of an academic programme or an Associate degree in the first year of a degree programme) concerning continuation of their studies within the bachelor's programme.
Study switcher	A student enrolled at BUAs or an external institution who changes their study programme or programme variant.
Teaching and Examination Regulations (TER)	Overview of educational rules and regulations and examinations of the courses belonging to a degree programme as referred to in article 7.13 of the WHW.
TFPR	Tuition Fee Payment Receipt.
Tuition fee	Every student owes the institution of first registration a tuition fee for every academic year of enrolment as referred to in article 7.43 of the WHW.

Tuition fee credit	Loan from DUO earmarked for paying the tuition fee.
WHW	The Higher Education and Research Act (WHW) including any changes.

Article 1.2 General provisions

WHW article 7.33

- 1 The Application and Enrolment Regulations (AER) are part of the Students' Charter of Breda University of Applied Sciences.
- 2 The Application and Enrolment Regulations contain rules of a procedural nature regarding application, enrolment and termination of enrolment of students.
- 3 The provisions in these regulations are applicable if and insofar as they are not in conflict with the provisions under or pursuant to the WHW.
- 4 Breda University of Applied Sciences has been included in the register of institutes that have signed the Code of Conduct for International Students. This code of conduct can be found on the SelfServiceDesk and the BUas website.

Article 1.3 Applicability

- 1 These regulations contain the rules that apply to everyone who wishes to enrol as a student of a degree programme at Breda University of Applied Sciences.
- 2 The Application and Enrolment Regulations relate to application and enrolment for the academic year 2024-2025 and replace earlier versions.
- 3 Wherever these regulations state 'student', an extraneous student is also referred to unless stipulated otherwise.
- 4 Wherever 'email address' appears in these regulations, it should read the student's email address that is provided by Breda University of Applied Sciences. This email address is the standard address used to communicate with students. When communication concerns Studielink-related matters (such as enrolment and de-enrolment, payment of tuition fees, etc.), the email address registered in Studielink is made use of.
- 5 References in this document relate to information available on the website of Breda University of Applied Sciences (www.buas.nl) or the student portal, unless stated otherwise.

Article 1.4 General enrolment requirements

- 1 Everyone wishing to make use of teaching and examination facilities or other facilities of Breda University of Applied Sciences needs to enrol as a student.
- 2 All those who only wish to make use of Breda University of Applied Sciences examination facilities only need to enrol as an extraneous student (for this purpose, see chapter 9).
- 3 One needs to apply for and enrol on the first year of a professional bachelor's programme, or the first year of an academic bachelor's programme or Associate degree programme in

accordance with the time limits stated in article 2.1 (in the case of previous education in the Netherlands) or article 3.1 (in the case of previous education abroad).

- 4 A student will only be admitted if they meet all conditions and requirements pertaining to enrolment.
- 5 Students can always be enrolled with effect from 1 September and they cannot be enrolled with retroactive force. Only at the discretion of the academy director can the date of 1 September be deviated from.
- 6 Students enrol on a degree programme for the entire academic year with the exception of provisions as referred to in article 4.7.
- 7 Everyone making use of provisions (as mentioned in section 1) of Breda University of Applied Sciences without being enrolled at the institute needs to pay compensation (a fine) apart from tuition fees. This fine is equal to the amount of tuition fees they would have had to pay if they had been enrolled during the relevant period. In addition, in the event of such an infringement, a criminal offence may be reported (article 15.3 of the WHW). If enrolment requirements have not all been met, partial examination results and examination results, if any, are not valid.
- 8 A student can only be enrolled if they demonstrate that in conformity with article 7.32 paragraph 5 of the WHW:
 - a they have the Dutch nationality, or are treated as Dutch nationals on the ground of a legal provision, or
 - b they are aliens and under the age of 18 on the first day on which the degree programme starts for which enrolment is requested for the first time, or
 - c they are aliens and 18 years or older on the first day on which the degree programme starts for which enrolment is requested for the first time and on that day is lawfully resident in accordance with article 8 of the Aliens Act 2000, or
 - d they are aliens and residents outside the Netherlands on the first day on which the degree programme starts for which enrolment is requested for the first time, or
 - e they are aliens who no longer meet one of the requirements under b, c or d and were enrolled on a degree programme at Breda University of Applied Sciences before in accordance with one of these components and the programme is still being attended and has not been completed yet.

Article 1.5 Supply of information

- 1 Information about procedures concerning application, enrolment and admission is provided on the website of Breda University of Applied Sciences (www.buas.nl).
- 2 Information about application, enrolment, admission, payment of tuition fees and de-enrolment is communicated through the Studielink email address. The student is responsible for checking and updating this email account on a regular basis. The student is recommended to check the 'unwanted email' folder at regular intervals.
- 3 Directions and instructions that are given through messages sent by Breda University of Applied Sciences and/or Studielink must be followed.
- 4 All written correspondence is sent to the postal address provided by the student. Any changes in this postal address need to be made through Studielink in time. Breda University of Applied Sciences is not liable, in any way, on account of not reporting in time any changes of postal address.
- 5 Students that have met the admission and enrolment criteria and the attendant financial obligations - and are enrolled as students - can ask for a proof of enrolment. To this purpose, the SelfServiceDesk of Breda University of Applied Sciences has to be made use of. Students can also ask for a proof of enrolment through Osiris Student.

Article 1.6 Hardship clause

Within the frameworks of the WHW, the Executive Board of Breda University of Applied Sciences is authorised to deal with cases of extreme unfairness that may occur when applying these regulations as well as make decisions these regulations do not provide for. To this purpose, the student needs to submit a well-founded written request to the Executive Board.

Article 1.7 Retention periods of documents

1.7.1 Documents about admission

- 1 Decisions concerning admission as referred to in articles 2.4.2, 2.4.3 and 3.5 need to be stored for two years after date of decision.
- 2 The two-year retention period applies to all underlying documents:
 - work carried out by student
 - advice given by admissions committee, if applicable
 - message sent to student
 - admission decision
- 3 The two-year retention period also applies to study choice recommendations issued to students as referred to in article 2.3.1 section 4, 2.3.2 section 2 and 2.3.4 section 2.

1.7.2 Documents about de-enrolment or refusal of enrolment by the Executive Board

The decision concerning de-enrolment or refusal of enrolment made by the Executive Board (article 11.3 section 3) must be stored for five years after the date of decision. This retention period also applies to all underlying documents.

Chapter 2 Prospective student with Dutch previous education¹

WVW articles 7.31a up to and including 7.31e
Regulations concerning Admission to Higher Education (Staatscourant, 24 April 2014)

Article 2.1 Application

- 1 After going through the application procedure as described in this chapter, the prospective student also needs to meet enrolment conditions in time to be able to start the degree programme on 1 September (for this purpose, see article 2.4).
- 2 The prospective student who wants to apply for the Bachelor of Science Tourism has to apply via Wageningen University. See application procedure on the website of Breda University of Applied Sciences (www.buas.nl).
- 3 The provisions for prospective students applying for a master's programme are stated in chapter 7.

Article 2.2 Applying for a programme with a selection procedure

If the prospective student wants to enrol on a degree programme with a selection procedure for the first time, different provisions apply (article 2.3 mentioned below is not applicable in this case).

A selection procedure applies to the degree programmes:

- Applied Data Science & Artificial Intelligence
- Creative Media and Game Technologies
- Creative Business
- Hotel Management

See appendix 1 for further details about applying for these programmes.

Article 2.3 Applying for a programme without a selection procedure²

- 1 If the prospective student wants to enrol in Year 1 of an academic bachelor's programme, professional bachelor's programme or associate degree programme, they are urgently requested to apply no later than 1 May prior to the relevant academic year. In this application, which is completed via Studielink, the student's personal DigiD³ is used.
- 2 The prospective student who applies for a degree programme no later than 1 May as referred to in section 1 has a right to be admitted and the provisions in articles 2.3.1 or 2.3.2 apply to him. If they apply after 1 May, the provisions in articles 2.3.3 or 2.3.4 apply.
- 3 If the chosen programme is offered in several variants, this will be communicated via Studielink⁴. In that case, the prospective student indicates which variant is opted for. In the follow-up of the application and enrolment procedure, Breda University of Applied Sciences determines whether a prospective student is admitted to the chosen variant.

¹ The prospective student coming from Aruba, Bonaire, Curaçao, Saint Eustace, Saba or St Maarten, must go through the application procedure as described in chapter 3.

² The points mentioned under 2.3 also apply to 2.2, with the exception of section 2.

³ If a prospective student does not have a DigiD yet, he must first apply for one through www.digid.nl. Not until this DigiD has been received can they start the application procedure through Studielink.

⁴ In some cases, prospective students are not offered a choice of differentiation or specialisation in advance, but they are questioned with the aid of questions in Studielink.

- 4 The variants as mentioned in section 3 may concern differentiations within the degree programme, language of instruction and/or attending the programme as an accelerated or a short track.
 - a Differentiation within the degree programme.
Some degree programmes have various propaedeutic variants within the chosen degree programme.
 - b Language of instruction.
Degree programmes can be both Dutch-taught and English-taught.
 - c Attending the degree programme as an accelerated three-year professional bachelor's programme for prospective students who are *vwo* graduates.
Students can only be admitted to this variant if they meet the full previous education requirements, so it will be impossible for them to be admitted based on a deficiency test.
 - d Attending the degree programme as a short three-year professional bachelor's programme for prospective students who are *mbo* (plus *havo*) graduates.
See appendix 4 for further details on short professional bachelor's programmes.
 - e The student who has completed an Associate degree successfully can be admitted to the regular bachelor's programme. Exemptions⁵ can be granted for courses of the bachelor's programme that were passed in the context of the Associate degree (see chapter 5).

2.3.1 Applying for a professional bachelor's programme or Associate degree programme by 1 May at the latest⁶

- 1 The departments offer support to prospective students who apply for the first year of a degree programme in higher education in terms of making the right study choice by offering a study choice check (also referred to as 'matching procedure' at BUAs). This check consists of various study choice activities, culminating in a study choice recommendation.
- 2 The study choice activities are mandatory and take place by 1 September at the latest. The type of study choice activity may vary in each degree programme. See appendix 2 for an overview of study choice activities.
- 3 The prospective student is invited by the department to participate in study choice activities. The student receives the invitation no later than within one week⁷ after applying via Studielink.
- 4 The relevant department sends the student a study choice recommendation via e-mail no later than within two weeks after the student has completed their study choice activities. This recommendation is provided by 1 September at the latest. This study choice recommendation is not in any way binding.
- 5 If the prospective student has not taken part in the study choice activities, without a valid reason for being prevented from attending (see section 6), this prospective student's enrolment will be declined.
- 6 The following valid reasons for being prevented from attending are: personal circumstances, other commitments regarding education, or the prospective student has study choice activities with several educational institutes simultaneously. The reason for absence must be submitted to the department in writing and prior to the planned study choice activity.
- 7 Prospective students for whom the distance between home address and Breda University of Applied Sciences is so big that their physical presence would not be logical can participate in

⁵ See the TER of the relevant study programme for more information.

⁶ This article is also applicable if another degree programme is applied for within higher education no later than on 1 May.

⁷ If a prospective student is not yet admissible and qualifies for a deficiency test or 21+ assessment, they will be required to first obtain a positive result for the deficiency test or 21+ assessment before being allowed to take part in any study choice activities. See article 2.4.2 or article 2.4.3.

study choice activities without their physical presence in these study choice activities being required.

2.3.2 Applying for the Bachelor of Science Leisure Studies by 1 May at the latest

- 1 The Bachelor of Science Leisure Studies⁸ offers support to prospective students in terms of making the right study choice by offering several study choice activities, culminating in a study choice recommendation.
- 2 The study choice activities of the Bachelor of Science Leisure Studies are offered between October and May and consist of a mandatory part (a questionnaire) and several optional parts. The study choice recommendation is provided at the end of this questionnaire. This study choice recommendation is not in any way binding.
- 3 If the prospective student fails to submit the mandatory study choice part, this prospective student's enrolment will be declined.
- 4 Prospective students for whom the distance between home address and Breda University of Applied Sciences is so big that their physical presence would not be logical can participate in study choice activities without their physical presence in these study choice activities being required.

2.3.3 First application after 1 May⁹

- 1 Enrolment by the prospective student who applies for year 1 of a certain programme via Studielink after 1 May can be declined by the Executive Board.
- 2 If study choice activities are offered, these are fully mandatory (see article 2.3.1 sections 2 and 3) or partly mandatory (see article 2.3.2 section 2). The department notifies the prospective student via e-mail of its study choice recommendation no later than within two weeks after the prospective student has participated in the study choice activities¹⁰. This recommendation will be given by 1 September at the latest.
- 3 If the study choice recommendation is negative, or if the prospective student has not taken part in the study choice activities which were made mandatory and has no valid reason for their failure to take part (see article 2.3.1 section 6), this will lead to the prospective student's enrolment being declined.
- 4 Prospective students for whom the distance between home address and Breda University of Applied Sciences is so big that their physical attendance would not be logical can participate in study choice activities without their physical attendance in these study choice activities being required.
- 5 For a prospective student who has received a negative binding recommendation regarding the continuation of studies for a bachelor's programme and who applies for a different bachelor's programme after 1 May, the provisions apply as referred to in article 2.3.1 or 2.3.2. With regard to this category of prospective student, the Executive Board may decide to oblige the prospective student to participate in the study choice activities.

⁸ This bachelor's programme is registered in CROHO as *Vrijetijdwetenschappen*.

⁹ This concerns a first application in Higher Education for a professional bachelor's programme, an Associate degree or academic bachelor's programme.

¹⁰ As for the Bachelor of Science Leisure Studies, this recommendation is provided immediately after the interview.

Article 2.4 Enrolment requirements

Apart from going through the application procedure as referred to in article 2.2 up to and including article 2.3.3, the prospective student has to satisfy the current requirements with regard to:

- previous education (see articles 2.4.1 up to and including 2.4.3.)
- payment of tuition fees (see article 2.4.4)
- other requirements, among other things, admission requirements (see article 2.4.5) to be able to enrol as a student at Breda University of Applied Sciences.

2.4.1 Previous education requirements and further previous education requirements

Articles 7.24 and 7.25 WHW

- 1 The prospective student at least needs to satisfy the requirements regarding previous education as laid down in the WHW and/or in these Regulations. Appendix 3 contains an overview of the requirements that apply to students with a *havo* or *vwo* diploma (previous education).
- 2 Those who have obtained a bachelor's or master's degree are also eligible for admission. However, these students could be obliged, if applicable, to demonstrate that they satisfy the additional previous education requirements. This is done by means of a supplementary test.
- 3 The prospective student must satisfy the previous education requirements before 1 September and demonstrates this by submitting a diploma dated before 1 September. The applicant must have submitted it before 1 October. If an applicant has not done so before this date, they cannot finalise their enrolment.

2.4.2 Deficiency test¹¹

WHW Article 7.25 paragraph 6

- 1 The Executive Board of Breda University of Applied Sciences can determine that holders of a diploma that does not meet the requirements as stated in appendix 3 (*havo/vwo*) will be enrolled if it appears from supplementary assessment (deficiency test or admission assessment) that a prospective student meets the requirements comparable to the above with regard to content. These requirements must be met before commencement of the programme. See appendix 5 for further details.
- 2 If a prospective student wants to take part in a deficiency test, they are required to enrol for both the bachelor's programme or Associate degree programme of Breda University of Applied Sciences and the deficiency test by 1 May at the latest.
- 3 Participation in the study choice activities, as referred to in article 2.3.1, is only possible after a positive result has been obtained for the deficiency test. This means that the prospective student must have eliminated their deficiency before the last matching day (in the case of the matching procedure) or selection activity (in the case of a selection procedure)¹² takes place.
- 4 A deficiency test is not possible for prospective students with *vwo* (pre-university education) as previous education who want to participate in an accelerated three-year *hbo* bachelor's programme.
- 5 A prospective student can lodge an objection to the result of a deficiency test to the Examinations Appeals Board of Breda University of Applied Sciences (also see chapter 12).

¹¹ See appendix 5 for an overview of admission assessments.

¹² If there is a selection procedure in place, a department may deviate from this if the prospective student demonstrates he is eliminating his deficiency.

2.4.3 Admission assessment (21+ arrangement)

WHW Article 7.29

- 1 The Executive Board of Breda University of Applied Sciences can determine that a prospective student aged 21 and older¹³ who does not satisfy the requirements regarding previous education is exempted from these requirements regarding previous education. Instead, this prospective student is tested whether they are capable of attending the relevant programme via the 21+ assessment. See appendix 5 for more details.
- 2 If a prospective student wants to take part in a 21+ assessment, they are required to enrol for both the bachelor's programme or Associate degree programme of Breda University of Applied Sciences and the 21+ assessment by 1 May at the latest. The result of the 21+ assessment is valid for 2 years and is only valid at the university of applied sciences at which the assessment was taken.
- 3 Participation in the study choice activities / selection procedure as referred to in article 2.3.1, is only possible after a positive result has been obtained for the 21+ assessment.
- 4 A prospective student can lodge an objection to the result of a 21+ assessment to the Examinations Appeals Board of Breda University of Applied Sciences (also see chapter 12).

2.4.4 Payment of tuition fees

Every prospective student who wants to enrol as a student at Breda University of Applied Sciences will have to satisfy the requirements pertaining to this enrolment.

One of these requirements is to timely meet the obligation to pay tuition fees, before 1 September. For more information about tuition fees, see chapter 4.

2.4.5 Other requirements

- 1 If the prospective student with Dutch previous education chooses to attend a degree programme in which English is the language of instruction, no supplementary requirements apply to English language skills.
- 2 If the prospective student wishes to be enrolled on one of the degree programmes with a selection procedure (see article 2.2), they need to have received a letter from the relevant department (degree programme staff) stating that they have been selected for this course.
- 3 The prospective student cannot be enrolled if they have previously received a negative recommendation regarding the continuation of studies for the relevant degree programme, unless this student is able to demonstrate that such a negative recommendation regarding the continuation of studies has been withdrawn or annulled.
- 4 Enrolment must be finalised before 1 September of the relevant academic year.
- 5 Students cannot be enrolled with retroactive force. Furthermore, the approval from the academy director is needed to enrol after 1 September.

¹³ The reference date is 30 September of the relevant academic year.

Chapter 3 Prospective student with previous education abroad

Article 3.1 Application

- 1 If the prospective student with previous education abroad wishes to apply as a student for the first year of an academic bachelor's programme, professional bachelor's programme or Associate degree programme, the student will be urgently advised to apply through Studielink by 1 May at the latest prior to the relevant academic year.
- 2 Under the group of prospective students with previous education abroad as referred to in section 1 also fall prospective students from Aruba, Bonaire, Curaçao, St. Eustatius, Saba or St. Maarten.
- 3 Contrary to the provisions of section 1, the prospective student with a non-EEA nationality for whom a study visa has to be applied *must* apply by 1 May at the latest.
- 4 Contrary to the provisions of section 1, programmes with a selection procedure apply different rules, see appendix 1. The deadlines in this appendix apply to all prospective students, so including the prospective student with previous education abroad.
- 5 Contrary to the provisions of section 1, the prospective student who wants to apply for the Bachelor of Science Tourism is required to apply at Wageningen University. See for the procedure the website of Breda University of Applied Sciences (www.buas.nl). The other sections of this article do not apply to this prospective student.
- 6 After application within Studielink has been completed, the prospective student has to answer the questions in 'My online application' / Application module¹⁴, and upload the documents stated in section 7.
- 7 The prospective student is requested to upload several documents in 'My online application'. These documents are:
 - motivation letter¹⁵;
 - curriculum vitae;
 - copy of a valid passport or ID card;
 - if available, a copy of a valid residence permit or EU identity card;
 - A scan of a list of marks with mid-term results of the previous education or a scan of the obtained diplomas and lists of marks if the previous education has been completed successfully, with a translation if necessary¹⁶;
 - an overview of English test scores obtained (if applicable).
- 8 Prospective students themselves are responsible for completeness and readability of the documents submitted. FC&S Student Office has the right to decline any documents that are difficult to read.
- 9 If the prospective student applying for a degree programme has not yet been awarded the diploma or any required English test results at the time of submitting the application documents as referred to in article 3.1 section 7, the relevant documents may be submitted online at a later date, but no later than 31 August (or no later than 1 July for non-EEA students for whom a study visa has to be applied).
- 10 For the prospective student as stated in sections 1, 2 and 3 also the provisions with regard to study choice activities/matching apply as stated in articles 2.3.1 up to and including 2.3.3.

¹⁴ For more information on this application module, visit the website of Breda University of Applied Sciences (www.buas.nl).

¹⁵ If applying for a degree programme with matching (see Appendix 2) a motivation letter is not required.

¹⁶ A translation (English or Dutch) is needed if these documents are in another language than Dutch, English, French, or German.

- 11 For the prospective student who wants to apply for a master's programme the provisions in chapter 7 apply.

Article 3.2 Previous education

- 1 The Executive Board grants exemption from the previous education requirements as referred to in article 2.4.1 to the student holding a degree issued in a country that has ratified the Convention Recognition of Qualifications concerning Higher Education, allowing admission to higher education in that country.
- 2 The Executive Board grants exemption from previous education requirements as referred to in article 2.4.1. to the student holding a certificate that has been issued in the Netherlands or another country that is at least equivalent to the degree as referred to in section 1 according to the Executive Board. FC&S Student Office takes this decision under the mandate of the Executive Board.
- 3 The prospective student does not need to take an English proficiency test to be allowed to attend an English-taught programme at Breda University of Applied Sciences if the following conditions are met:
 - The prospective student, irrespective of their nationality, has completed a degree programme in one of the following countries, where the language of instruction was English (or according to the educational system of and accredited in): Australia, Canada (with the exception of Quebec), Ireland, New Zealand, the United Kingdom and the United States.
 - The prospective student, irrespective of nationality, has been awarded a diploma that is included on the list of diplomas compiled by Nuffic. One of the exam subjects was English (see appendix 6 for Nuffic's list of diplomas).
 - The prospective student satisfies the previous education requirements on the basis of an International Baccalaureate (IB) diploma, the Career-Related Certificate of the International Baccalaureate or the European Baccalaureate certificate (English 1 or 2)
- 4 The prospective student who does not meet one of the provisions as referred to in section 3 is required to have obtained the minimum score stated below for one of the following three tests¹⁷ in order to be allowed to attend an English-taught programme at Breda University of Applied Sciences:
 - IELTS Academic test
The minimum score that must be obtained is:

- total score	6.0
- speaking	6.0
 - TOEFL iBT test
The minimum score that must be obtained is:

- internet-based (iBT)	80
- speaking	20
 - Cambridge English Qualification results (B2 First, C1 Advanced, or C2 Proficiency).
The minimum score that must be obtained is:

- total score	169
- speaking	169

¹⁷ If under certain circumstances the tests accepted in the Code of Conduct for International Students in Higher Education are widened, we will follow this temporary widening.

Article 3.3 Enrolment conditions

- 1 The provisions concerning payment of tuition fees as referred to in chapter 4 are also applicable to the prospective student with previous education abroad.
- 2 The provisions of article 2.4.5 (except for the provisions in section 1) are also applicable to the prospective student with previous education abroad.

Article 3.4 Additional requirements for non-EEA students

- 1 In addition to the provisions of article 3.3, non-EEA students must possess:
 - proof of legitimate stay in the Netherlands with a right to study;
 - adequate health insurance and liability insurance.
- 2 In the event of study being the goal of staying in the Netherlands and Breda University of Applied Sciences acts as referee, proof of sufficient financial means (standard amounts for studying, also called living allowance) to be able to stay in the Netherlands in the relevant academic year needs to be presented. This standard amount is annually determined and can be found at www.IND.nl.
- 3 A first-year student must pay the necessary standard amount to Breda University of Applied Sciences. Subsequently, this standard amount will be refunded by the institute. The non-EEA student also needs to present proof of sufficient financial means to the institute for enrolling for a following academic year.
- 4 Additionally, a non-EEA student has to meet the following study progress requirement: 50% of the maximum number of credits to be earned in the current year of study must be actually obtained every year. If this requirement is not met, Breda University of Applied Sciences must report this to IND and the student's residence permit will be withdrawn. Unless the student has a valid (excusable) reason. A student can rely on the same excusable reason once.
- 5 If Breda University of Applied Sciences refuses to act as referee as stated in section 2, the student cannot (re)enrol for a degree programme at BUas.
- 6 If Breda University of Applied Sciences decides in imperative circumstances to discontinue acting as referee as stated in section 2, in the course of the academic year, the student must terminate enrolment via Studielink.

Article 3.5 Admission assessment

Article 7.29 WHW

The Executive Board of Breda University of Applied Sciences can decide to have the prospective student who has a certificate issued outside the Netherlands participate in an admission assessment also if the prospective student has not reached the age of 21. This also applies to special cases if the prospective student cannot submit any diploma. Also see article 2.4.3.

Chapter 4 Provisions concerning tuition fees

Article 4.1 Tuition fees

- 1 The student is required to pay tuition fees for every academic year for which they are enrolled on a degree programme at Breda University of Applied Sciences. For more information see the [Regeling Collegegelden](#) (Tuition Fee Regulations).
- 2 The statutory tuition fee is determined annually by the Minister of Education, Culture and Science (OCW).
- 3 In the context of the distinctive feature 'Small-scale Intensive Education', Breda University of Applied Sciences has the right to ask for an increased statutory tuition fee for the degree programmes in Applied Data Science & Artificial Intelligence, Creative Business and Creative Media and Game Technologies. This increase per academic year is stated in the [Regeling Collegegelden](#) (Tuition Fee Regulations).
- 4 In the case of special circumstances, as referred to in article 7.51 section 2 WHW students can apply for dispensation of the increased part of the statutory tuition fee as referred to in section 3. A reasoned request for this dispensation can be submitted to the Executive Board.
- 5 The student who enrolls for a second degree programme before completing the first degree programme and obtaining a degree for this first degree programme keeps the right to pay statutory tuition fees for this second degree programme. This right will continue to exist after a degree has been awarded for the first degree programme if enrolment is not discontinued.
- 6 The institutional tuition fee amounts are based on the statutory tuition fee determined by the Ministry of OCW, combined with the amount of government grant per student. For more information see the [Regeling Collegegelden](#) (Tuition Fee Regulations).
- 7 Institutional tuition fee amounts are determined by the Executive Board of Breda University of Applied Sciences annually. These amounts may vary per degree programme or group of programmes or per group or groups of students and per programme variant. The amount of the institutional tuition fees is at least equal to the statutory tuition fee.
- 8 If the student who pays the institutional tuition fee meets the provisions pertaining to the statutory tuition fee during the academic year, this student is charged the statutory tuition fee as of that moment and any amount paid in excess will be refunded.
- 9 If the tuition fee is paid by a third party, the student needs to agree with it if they are of age.
- 10 The Executive Board can grant students a one-off exemption – on the grounds of article 7.47a WHW – from paying the statutory tuition fee for the period of one academic year. Information about this including the conditions for studying without paying tuition fees, is included in the [Regeling Profileringsfonds](#) (Profiling Fund Regulations).

Article 4.2 Payment of tuition or examination fees

- 1 The tuition fees due can be settled in one of the following ways:
 - a Payment in one lump sum by digital payment authorisation through Studielink;
 - b Payment by digital payment authorisation on the basis of an instalment scheme (12 instalments) through Studielink. For this payment in instalments, an administrative fee is charged amounting to €24.

- c Payment in one lump sum through the bank (this option is only available to foreign students who do not have a Dutch bank account yet, and who come from a country that is not part of SEPA¹⁸).
- 2 The tuition fee due needs to be paid before 1 September. Or a direct debit mandate needs to have been given before 1 September. If the student does not meet this criterion, the right to enrol lapses for the relevant academic year.
 - 3 By digital payment authorisation as referred to in section 1, the student permits Breda University of Applied Sciences to debit a certain amount from their bank account in one lump sum or in instalments.
 - 4 Digital payment authorisation needs to be arranged before 1 September. Breda University of Applied Sciences performs the first direct debit collection of the tuition fee in the last week of September.
 - 5 The tuition fee stated on the digital authorisation form in Studielink is subject to change. A correction could be made if it appears on closer inspection that the student falls under a different category than was previously assumed.
 - 6 In exceptional cases, at the academy director's request, the Executive Board may still decide - contrary to the provisions of section 2 - to enrol the student. In such a case, the student can be given a fine on top of the tuition fee due.
 - 7 The examination fees an extraneous student has to pay can only be settled by lump-sum payment. This lump-sum payment will have to be settled before enrolment commences.
 - 8 If a student has overdue payments, the provisions as referred to in the article concerning overdue payments (see article 4.5) are applicable. This student is denied access to IT and study facilities.
 - 9 In addition to section 2, the student will not be awarded a certificate of the examination passed as long as the tuition or examination fees due have not been settled yet. A transcript listing the exams passed is not provided either. The student involved can be declined participation in courses, use of facilities of the institute and access to its buildings.

Article 4.3 Tuition Fee Payment Receipt

If a student wants to attend another degree programme in Higher Education within the Netherlands, and the right to statutory tuition fees applies to both degree programmes, the student is exempted from the obligation to pay the tuition fee for the second (and, any following) enrolment. To show that the obligation to pay to Breda University of Applied Sciences has been met, a Tuition Fee Payment Receipt (TFPR) can be requested for that purpose. This application procedure is arranged via Studielink, unless all institutes involved have started to use the payment method Tuition Fee Payment Receipt in Studielink. More information about it can be found in Studielink.

Article 4.4 Other contributions and costs

- 1 Enrolment as a student does not depend on any other financial contribution apart from the tuition fee.
- 2 Contrary to section 1, the student that is a non-EEA national must present proof that he has sufficient financial means to be able to study at Breda University of Applied Sciences. See article 3.4.

¹⁸ SEPA= Single European Payments Area.

- 3 Any costs for an institute stemming from legal obligations to provide education may not be passed on to the student.
- 4 Costs for educational facilities needed to participate in courses or examinations of the degree programme have to be paid by the student. These may concern, for example, books, materials (such as a laptop or calculator) and material for practicals. This also applies to the costs of facilities for the practical training company of the degree programmes in Hotel Management and Facility Management.
- 5 The amount of the contributions for excursions, introduction weeks, practical weeks and other costs for learning materials needs to be reasonably proportional to the costs incurred.
- 6 Prior to enrolment or re-enrolment, the academy gives an estimate of the amount of the payments due, as stated in sections 4 and 5. For an estimate of the extra study costs, see appendix 8.
- 7 In the event a student does not want (or is unable) to make a contribution as referred to in section 5 while there is an activity or provision that is a part of a mandatory course unit of the degree programme, the student is offered an alternative activity or provision that is free of charge.
- 8 To facilitate registration and payment of other contributions (pertaining to introduction week, study trips, practical training, etc.) Breda University of Applied Sciences has developed a central online registration portal: MORE (more.buas.nl). Through MORE, the student can arrange registration and payment of additional activities.

Article 4.5 Overdue payments

- 1 If a student does not effect payment of (parts of) tuition fees, this is a legal ground to terminate enrolment in accordance with the WHW. In this case, the student is denied access to and use of educational facilities of Breda University of Applied Sciences.
- 2 Article 4.6 is applicable to overdue payments in respect of tuition fees (see section 1) and/or costs of educational activities (as referred to in article 4.4). A student has overdue payments if amounts due are not paid in time or if money for which authorisation has been given cannot be debited from their account.
- 3 Article 4.6 is also applicable if overdue payments come to exist because the student reverses amounts that have already been collected.
- 4 A digital payment authorisation or a signature on a direct debit form may and has to be considered an obligation to pay.

Article 4.6 Procedure regarding overdue payments¹⁹

- 1 If direct debit cannot be collected, or the instruction to pay is reversed by the bank (owing to insufficient balance), the student is reminded of paying the amount due within two weeks after the direct debit order. The student receives a reminder by e-mail at the e-mail address registered in Studielink. If the account holder themselves manually reverses payment, access to the IT facilities mentioned in section 3 will be denied without any delay.
- 2 Further to the reminder the student is given an opportunity to settle the amount due within 14 days without any additional charges. The student is also informed of the sanctions if payment

¹⁹ For the most recent procedure, see the Regulation regarding Overdue Payments on the website of Breda University of Applied Sciences.

is not made.

- 3 If the student fails to comply and the amount due is not paid within two weeks, a demand for payment is sent in which the student is formally given notice of default. If the amount due concerns tuition fees, access to education (including examinations or final exams) and other facilities (among other things, access to IT facilities) will be denied. Further to this demand for payment, the student is given time for max one week after date of the demand for payment to finally pay the amount due. For this demand of payment an administrative fee of €24 is charged.
- 4 If the student involved is still in default **one week** after this first demand for payment, the claim is forwarded to a collection agency, resulting in the amount due being raised by extrajudicial collection charges laid down by law. The amount of the collection charge is determined by law and depends on the level of the amount due.
- 5 After the claim has been forwarded to a collection agency, it will have to be paid there. If, within one week after being notified about the claim having been forwarded to a collection agency, the financial obligation has not been settled and/or no payment arrangement has been made, enrolment will be terminated at the end of the current month if the amount due concerns the tuition fee. A confirmation letter of termination will be sent to the postal address registered via Studielink. The claim that Breda University of Applied Sciences has at that moment will not cease to exist and remain demandable. If a student de-enrols with effect from 30 June, the collection instalments of July and August still need to be paid in connection with the fact that there is no right to a refund.
- 6 A student whose enrolment has been terminated during the academic year on account of provisions in this article will not be allowed to re-enrol until the following academic year. A precondition for this re-enrolment, apart from the regular enrolment requirements, is that all outstanding debts, plus any costs incurred, must be paid first.
- 7 If there are any reasons to re-enrol the student as referred to in section 6 during the relevant academic year, permission will be required from the academy director concerned. For the tuition fee due for re-enrolment, it is impossible to use a direct debit mandate; the full amount must be paid before enrolment is finalised.

Article 4.7 Lowering, exemption from and refund of tuition fees

- 1 If a student has enrolled during the academic year after the express approval of the academy director, a part of tuition fees is due. This part amounts to one twelfth part for every month of the rest of the academic year to which enrolment applies. The total amount that is due for this enrolment cannot be paid through a direct debit mandate. The amount must be paid before enrolment is finalised.
- 2 If student enrolment is terminated during the academic year on account of article 11.2 or 11.3 of these regulations, the student has the right to a refund of the proportional part of the tuition fee. This refund equals one twelfth (1/12) of tuition fees for every month remaining in the year.
- 3 Contrary to the provisions in section 2, the student has no right to a refund if:
 - a enrolment is terminated with effect from July or August, or
 - b the student is also enrolled on another degree programme of Breda University of Applied Sciences, or
 - c Breda University of Applied Sciences has issued a tuition fee payment receipt and the student has not yet submitted the original tuition fee payment receipt to Breda University of Applied Sciences;
 - d the student is enrolled on the post-initial master's programme Master Imagineering of Breda University of Applied Sciences.
- 4 If the student passes away during the academic year, one twelfth of tuition fees will be paid after the student's death as a lump sum for every following month of the academic year.

- 5 If the student who is enrolled on a degree programme in Higher Education for which statutory tuition fees are due wants to enrol in another degree programme within Higher Education for which they meet the provisions for statutory tuition fees, they do not have to pay any tuition fee for the other degree programme(s), unless the tuition fee for the second programme is higher than for the first. In the latter case, the student needs to pay the difference to the institution at which they attend the other degree programme. See article 4.3 as well.
- 6 If a student is enrolled at Breda University of Applied Sciences, the Executive Board can exempt this student from paying the statutory tuition fee for the period of max one academic year if the student:
- is a full-time board member of a student association of considerable size (comparable to LSVb or ISO) with full legal capacity or of the BUas participation council or
 - carries out activities (full-time) in the administrative or social field that are in the interest of (education of) the institute according to the Executive Board.
- During this period, the student is not permitted to attend any classes or participate in examinations or final exams. Besides, membership and activities may not be commercial by nature. More information can be found in the [Regeling Profileringsfonds](#) (Profiling Fund Regulations).
- 7 If the tuition fee is paid in instalments, they are only refunded if the eventual amount due is lower than the amount already paid. In this case, the difference between these two amounts is refunded.
- 8 If a student is enrolled on two bachelor's programmes or two master's programmes (parallel studies) for which they have a right to pay statutory tuition fees, this student will keep the right to enrol at the statutory tuition fee for any further enrolments, also in the event that they are awarded a degree for one of these programmes. This is only applicable if enrolment is not discontinued.
- 9 The student who has a first enrolment at a different institute from Breda University of Applied Sciences for which they need to pay the institutional tuition fee needs to pay the full tuition fee in the event of a second parallel enrolment at Breda University of Applied Sciences as is determined for the chosen degree programme.
- 10 Contrary to the provision of section 9, the student is granted full or partial exemption from paying the institutional tuition fee for the second enrolment if both the first and second enrolments take place at Breda University of Applied Sciences. The student owes the higher amount of the two institutional tuition fees for these enrolments.²⁰

²⁰ Contrary to the provisions in section 9 it holds that – if both the first and second enrolments take place at Breda University of Applied Sciences - the student is wholly or partially exempted from the obligation to pay the institutional tuition fee for the second enrolment. The highest amount of the two institutional tuition fees will be payable by the student for these enrolments.

Chapter 5 Application for a higher year / lateral entry²¹

Article 5.1 Lateral entry from a different programme of Breda University of Applied Sciences (internal switchers)

- 1 The student that has passed the propaedeutic phase at Breda University of Applied Sciences, or has obtained at least 60 ECTS credits in an academic bachelor's programme or Associate degree programme at Breda University of Applied Sciences can be admitted to the main phase of a professional degree programme (or year 2 of an academic bachelor's programme) of Breda University of Applied Sciences falling under the same CROHO domain. The academy director is authorised to set additional requirements.
- 2 In addition to the provisions of section 1 a student can be conditionally admitted to the main phase of a degree programme while the propaedeutic phase of the previous programme has not been fully completed. However, the student must have received positive study recommendation. Furthermore, the academy director of the new programme must give a student permission to enrol for the main phase of the new programme. In all cases, the academy director of the new degree programme determines whether the propaedeutic phase must be completed of the original programme or the new one.
- 3 Article 5.2 (with the exception of section 1) is also applicable.

Article 5.2 Lateral entry of a student with a propaedeutic diploma obtained elsewhere (external switchers)

- 1 Prospective students who passed their first year within higher education (at home or abroad), or obtained at least 60 credits in an academic bachelor's programme (at home or abroad) can be admitted to the main phase of a professional bachelor's programme (or the second year of an academic bachelor's degree programme) of Breda University of Applied Sciences falling under the same CROHO domain. The academy director is authorised to set additional requirements.
- 2 The prospective student who is admitted to the main phase of a professional bachelor's programme or the second year of an academic bachelor's programme on the basis of the provision of section 1 attends, in principle, the full main phase curriculum (or years 2 and 3 of an academic bachelor's programme). Individual exemptions are possible (See the TER of the relevant programme). Moreover, it is possible that fixed course units of the degree programme are exempted on the basis of overlap with foreign institutions.
- 3 The prospective student with a propaedeutic diploma from a degree programme in the CELTH domain (Leisure, Tourism or Hospitality) is directly admissible to the main phase of the Leisure & Events Management programme.
- 4 The prospective student with an Associate degree in Logistics can directly be admitted to the main phase of the Logistics Management or Logistics Engineering programme. The prospective student with an Associate degree in Built Environment can directly be admitted to the main phase of the Built Environment programme.
- 5 In addition to the provisions of section 1, the additional requirements for the Leisure & Events Management programme consist of participating in the progress test, and as far as the international tracks are concerned, having a demonstrable command of the English language on B2/C1 level.
- 6 The prospective student needs to apply for a higher year through Studielink.

²¹ Per study programme it can be decided not to admit any lateral entrants (with the exception of persons discontinuing enrolment as a student).

- 7 Contrary to the provisions of the above sections, the prospective student whose previous education as referred to in section 1 is not in the same CROHO domain as the new programme needs to obtain the propaedeutic diploma of this new degree programme (or year 1 in the case of an academic bachelor's programme). To this purpose, the board of examiners may grant individual exemptions. The provisions of chapter 2 or 3 apply to this prospective student (this student is considered to take lateral entry in the first year).
- 8 Only applications that have been requested through Studielink before 1 September of the relevant academic year are dealt with.
- 9 The enrolment with Breda University of Applied Sciences must be finalised before 1 September of the relevant academic year.
- 10 Enrolment cannot come into effect with retroactive force. In addition, explicit permission must be obtained from the academy director to enrol after 1 September.
- 11 The provisions concerning payment of the tuition fee as referred to in chapter 4 are also applicable.

Article 5.3 Other lateral entrants

- 1 On the basis of agreements that Breda University of Applied Sciences has reached with foreign institutions of higher education, a prospective student who has obtained at least 180 credits can be admitted to the fourth year of study of a professional bachelor's programme. Those students attend the curriculum of the fourth year consisting of 60 credits. The academy director decides on admission. The inbound double degree student is also considered 'lateral entrant'.
- 2 The prospective student needs to apply for being admitted to a higher year through Studielink.
- 3 Only applications that have been submitted via Studielink before 1 September of the relevant academic year are dealt with.
- 4 Enrolment cannot come into effect with retroactive force.
- 5 Enrolment needs to be finalised before 1 September of the relevant academic year.
- 6 The provisions concerning payment of tuition fees as referred to in chapter 4 are also applicable.

Article 5.4 Enrolment on a minor at Breda University of Applied Sciences

- 1 It is possible for a student who has a first enrolment with another university of applied sciences or university to attend a minor at Breda University of Applied Sciences through a second enrolment. This student needs to meet the admission requirements of the degree programme that delivers this minor and the specific requirements, if any, set by the minor programme.
- 2 The student downloads a study contract via www.kiesopmaat.nl. This study contract must be signed by the student and by the board of examiners of the student's own educational institute. The signed version must be emailed to minordesk@buas.nl, along with the student's propaedeutic certificate, list of marks, ID card and proof of enrolment. The student also needs to upload a Tuition Fee Payment Receipt to *My online application*.

- 3 The second enrolment as referred to in section 1 does not give entitlement to any right to participate in a minor programme. The relevant department can impose enrolment restrictions (such as a maximum number of participants).

Chapter 6 Internal transfer during the academic year from existing enrolment (internal switchers)

Article 6.1 Internal transfer to another degree programme

- 1 If a student is enrolled on a degree programme at Breda University of Applied Sciences and is of the opinion that a different CROHO programme fits them better (or this is what they are urgently advised), they will be offered the possibility to transfer to another degree programme until 30 September.
- 2 The academy director of the new programme needs to approve of the transfer as referred to in section 1. This approval must also be reported in writing to Registration & Compliance (part of Student Office, FC&S).
- 3 The transfer to a different CROHO programme is only possible if all requirements that apply to enrolment in the new programme are met.
- 4 If a higher tuition fee applies to the new degree programme, the difference (an additional amount) needs to be paid in proportion. If a lower tuition fee applies to the new degree programme, the student can submit a request for a refund of the amount paid in excess.
- 5 For the internal transfer, the procedure that applies within the new academy needs to be adhered to.

Article 6.2 Internal transfer to another programme variant

- 1 If a student is enrolled on a degree programme at Breda University of Applied Sciences and thinks that a different programme variant within the degree programme which the student is enrolled on would fit them better (or this is what they are seriously advised), they will be offered the possibility to transfer to another programme variant up to and including 30 September.
- 2 Transferring to another programme as referred to in section 1 requires the approval of the programme coordinator of the new programme variant. Written notification of this approval needs to be given to Registration & Compliance (part of Student Office, FC&S).
- 3 Contrary to the provisions of section 1 the student attending the propaedeutic phase of Tourism Management is allowed to transfer during the first term (or in other words, before the start of term two).
- 4 In addition to the provisions of section 1, students attending the Leisure & Events Management programme have a second opportunity to switch between both programmes without the intervention of the board of examiners. This second opportunity is in the period between semesters 1 and 2 (or between semesters 3 and 4). In this case, the student has to resit any insufficient tests from semester 1 (or semester 3) in the language of instruction of the original degree programme.
- 5 In addition to the provisions of section 1, the student attending the propaedeutic phase of the Creative Business programme has the opportunity to inform the department before the end of the propaedeutic phase whether they opt for the regular track or the accelerated track as from the second year. They can only be admitted to the accelerated 3-year programme after successfully completing the propaedeutic phase, and pre-university education as previous education or at least a similar certificate.
- 6 A student who is enrolled on a programme of the Academy for Built Environment & Logistics and wants to transfer, in the main phase, to a different degree programme within the same domain (or a different degree programme within the Logistics domain or to a different degree

programme within the Built Environment domain) will have to submit a request to this effect to the board of examiners. After approval, the board of examiners will determine a plan of study for this student.

Chapter 7 Discontinuation of studies (re-entry of students)

- 1 Enrolment of a student is considered discontinued if this student is not enrolled on 1 October once (or several times).
- 2 The person who has discontinued enrolment at Breda University of Applied Sciences as a student and wants to re-enrol for the same degree programme needs to apply for a higher year via Studielink (in Studielink, choose 'Higher Year' of the 'Start as' options field). If in doubt, students are advised to seek advice from the student counsellor of the department.
- 3 If a student discontinues enrolment on a degree programme, the board of examiners of the department may oblige a student to sit a supplementary or substitute examination with regard to an examination already passed before a student is admitted to sit the final bachelor's exam.²² This provision can only be applied if the curriculum has been changed or if knowledge and abilities have demonstrably become outdated.
- 4 The student is re-enrolled only if a negative recommendation regarding the continuation of studies has not been received at an earlier date and/or if they can demonstrate that such a negative recommendation regarding continuation of studies has been withdrawn or annulled.
- 5 If the student who wants to re-enter has previously received a negative binding recommendation regarding continuation of studies for the same degree programme, they are urgently advised to seek advice from the student counsellor of the relevant department. The procedure to be followed by the various departments may vary.
- 6 Only applications that have been submitted through Studielink before 1 September of the relevant academic year are dealt with by Breda University of Applied Sciences.
- 7 All enrolment requirements must have been met before 1 September of the relevant academic year to enable enrolment.
- 8 Enrolment must be finalised before 1 September of the relevant academic year.
- 9 Enrolment cannot come into effect with retroactive force. Furthermore, explicit permission needs to be obtained from the academy director to enrol after 1 September.
- 10 The provisions concerning payment of tuition fees (chapter 4) are also applicable.

²² Also, see the article in the TER dealing with the validity period of examinations.

Chapter 8 Application for and enrolment on a master's programme

Article 8.1 Master's programmes

1.1.1 Government-funded master's programmes

- 1 Breda University of Applied Sciences offers six government-funded master's programmes. Five of these are professional master's programmes: Master Game Technology, Master Media Innovation, Master Tourism Destination Management, International Supply Chain Management, Master Strategic Events Management, and Master Sustainable Outdoor Hospitality Management. The sixth is an academic master's programme, Master in Leisure and Tourism Studies.
- 2 If the relevant requirements are met, the student needs to pay the statutory tuition fee for enrolment in these programmes. For more information see the [Tuition Fee Regulations](#).
- 3 The student is enrolled for an academic year. If the programme has not been completed within the year, the student involved needs to re-enrol and pay the tuition fees again pertaining to that enrolment (See chapter 9).
- 4 See chapter 4 for all other provisions concerning tuition fees.

8.1.2 Non-government-funded master's programmes

- 1 Breda University of Applied Sciences offers one non-government-funded professional master's programme: Master Imagineering, Master in Business Innovation from the Experience Perspective. This master's programme is also labelled non-government-funded master's programme.
- 2 Institutional tuition fees are applicable for enrolling in such a degree programme as a student. See the [Tuition Fee Regulations](#) for the amount due.
- 3 Enrolment applies to the entire degree programme. If a longer period than one academic year is needed, the student needs to re-enrol via Studielink²³ for the next academic year. No additional tuition fee is due for that purpose. However, a fee is charged to extend the enrolment, see sections 4 and 5.
- 4 Enrolment for a non-government-funded master's programme includes two rounds of exams (opportunities to sit the final exam). If the student still has not completed the programme after participating in these two exam rounds, a request for extension of enrolment can be submitted.
- 5 The extension of studies as referred to in section 4 needs to be applied for with the management team of the programme. Each extension comprises at least one extra graduation opportunity. Fees are charged to extend studies. For that purpose, see the [Tuition Fee Regulations](#) as well).

²³ Students can only enrol via Studielink per academic year. They will need to re-enrol via Studielink if they wish to enrol for a following academic year.

Article 8.2 Application for a master's programme

- 1 If the prospective student wants to apply for a master's programme at Breda University of Applied Sciences for the first time, they have to apply via Studielink, and continue the application via *My online application* (application module of Breda University of Applied Sciences).
- 2 The prospective student of a master's programme is advised to apply as soon as possible (preferably before 1 June) but at any rate no later than 15 August.
- 3 For the following master's programmes, a maximum number of students has been determined²⁴:
 - Master Game Technology
 - Master International Supply Chain Management
- 4 Contrary to the provision of section 2 a prospective student with a non-EEA nationality for whom a study visa has to be applied is obliged to apply no later than 1 June. This category of student can only be enrolled for a full-time programme.
- 5 Requests for application that are received after 15 August are not dealt with by Breda University of Applied Sciences.
- 6 After application within Studielink has been completed, the prospective student receives an e-mail containing information about follow-up steps and a link to *My Online Application*.
- 7 Within *My online application* the prospective student is requested to upload the following documents:
 - letter of motivation;
 - curriculum vitae;
 - copy of a valid passport or identity card;
 - if available, a copy of a valid residence permit or EU identity card
 - scan with a list of marks with mid-term results of the previous education or a scan of the obtained diplomas and lists of marks if the previous education has been completed with a translation²⁵ if any;
 - overview of English test scores obtained (if applicable).
 - depending on the master's programme, an intake assessment / project proposal / reference request. Further details on this can be found under the selection procedure per degree programme.
- 8 Prospective student themselves are responsible for completeness and readability of the documents submitted. FC&S Student Office has a right to decline any documents that are difficult to read.
- 9 If the prospective student - at the moment of submitting the application documents as stated in article 7.2 section 8 - had not obtained the required diploma or the required English proficiency test results, if any, these may be submitted online at a later date, but no later than 31 August (or no later than 1 July if it concerns non-EEA students).
- 10 After successful completion of the application process via *My online application*, as referred to in section 7, the prospective student will be brought into contact with the academy responsible for the master's programme concerned for the purpose of taking part in the intake procedure (see appendix 7).

²⁴ When the maximum number of students has been set, this will be communicated on the BUas website.

²⁵ A translation (English or Dutch) is needed if these documents are in another language than Dutch, English, French, or German.

Article 8.3 Previous education requirements of master's programmes

8.3.1 General

- 1 The prospective student must have a (professional or academic) bachelor's degree within the CROHO sector of the master's programme.
- 2 In the case of the academic Master Leisure and Tourism Studies the prospective student must have an academic bachelor's degree within the CROHO domain of the master's programme.
- 3 Any additional provisions to section 1 or 2 are mentioned in article 8.3.2 up to and including article 8.3.8.

8.3.2 Previous education requirements of Master of Science Leisure and Tourism Studies

- 1 The academic bachelor's programmes as referred to in section 8.3.1 section 2 are:
 - Bachelor of International Leisure Sciences²²⁶;
 - Bachelor of Science Tourism²²⁷;
 - A related academic bachelor's programme completed at another university (e.g. Sociology, Economics, Psychology, Organisational Studies, Management or Marketing).
- 2 In addition to the bachelor's programmes mentioned in section 1, the following pre-master's programmes may also qualify as suitable previous education:
 - Leisure and Tourism Studies²²⁸;
 - Strategic Business Management²²⁹.
- 3 Apart from a successfully completed pre-master's programme, the following additional condition applies to pre-master's students to transfer to the Master LTS:
 - The pre-master's programme must be completed within two years (barring personal circumstances)

If this situation occurs, the programme coordinator eventually decides whether or not the pre-master's student is admissible to the Master LTS.

8.3.3 Previous education requirements of Master Media Innovation

The Master Media Innovation has a preference for the prospective student who has obtained a bachelor's degree in the field of Business, IT, Media or Communication or a media-related degree programme.

8.3.4 Previous education requirements of Master Game Technology

Master Game Technology links up with the bachelor's programme CMGT differentiation IGAD which is offered by Breda University of Applied Sciences. Entry requirements for all other prospective students consist of a completed bachelor's programme in the field of IT (area of specialisation Programming) or Graphic Design (area of specialisation Visual Arts).

²⁵ This bachelor's programme is registered in CROHO as *Vrijetijdwetenschappen* and is offered by Breda University of Applied Sciences.

²⁶ Double degree programme of Breda University of Applied Sciences and Wageningen University.

²⁷ Programme offered by Breda University of Applied Sciences.

²⁸ Programme offered by Breda University of Applied Sciences.

8.3.5 Previous education requirements of Master Tourism Destination Management

- 1 The prospective student is required to hold a bachelor's degree, preferably one in the domain of Tourism, Hotel Management, International Business or Economics. The prospective student must also meet the following criteria:
 - having specific knowledge in the field of tourism destination development;
 - having sufficient knowledge of intercultural studies;
 - having demonstrable research skills at bachelor's level (research methods and techniques, abstract and critical thinking);
 - having gained relevant international (work) experience;
 - having a well-founded motivation for 'destination management';
 - having acquired demonstrable English language skills.
- 2 The student holding a bachelor's degree in a different domain from the above can be admitted if they - in addition to the above-mentioned criteria - meet the criterion of having sufficient knowledge of financial management.

8.3.6 Previous education requirements of Master Imagineering

The prospective student holding a bachelor's degree can be directly admitted, preferably the student meeting the previous education requirements within the domains of Tourism, Leisure & Events Management, Hotel Management, Media and Entertainment Management, Marketing, Retail Marketing, Human Resource Management or Communication.

8.3.7 Previous education requirements of Master Strategic Events Management

- 1 The prospective student is required to hold a bachelor's degree, preferably one in the domain of Leisure, Events, Sport, Tourism, Hotel Management, Facility, Culture, International Business or Economics. The prospective student must also meet the following criteria:
 - having specific knowledge of the events industry;
 - having relevant (work) experience;
 - having a job or traineeship in the field of events for 2 to 3 days a week;
 - having demonstrable research skills at bachelor's level (research methods and techniques, abstract and critical thinking);
 - having a well-founded motivation for 'events management';
 - having acquired demonstrable English language skills.
- 2 The student holding a bachelor's degree in a different domain from the above can be admitted if this prospective student demonstrably meets the following criteria in addition to the above-mentioned criteria:
 - having sufficient knowledge of financial management;
 - having specific knowledge of leisure/events.

8.3.8 Previous education requirements of Master International Supply Chain Management

The bachelor's programmes as referred to in article 8.3.1 section 1 are:

- Logistics Management;
- Logistics Engineering;
- A bachelor's programme in Management or Business Administration with an emphasis on logistics (for example during the graduation project) or a logistics minor attended during this bachelor's programme.

A prospective student holding a bachelor's degree in a different domain from the above may be admitted as well, depending on the share of logistics/supply chain in previous education. The prospective student can be asked to do additional courses in the field of logistics and/or supply chain management to be admitted.

Article 8.4 Previous education requirements of pre-master's programmes

- 1 To be admitted to the pre-master's programme Leisure and Tourism Studies, the prospective student needs to hold a bachelor's degree, preferably one in the field of Leisure or Tourism. Upon completing this pre-master's programme, the student also has to meet the provisions as referred to in article 8.3.2 section 3 for transferring to the master's programme.
- 2 To be admitted to the pre-master's programme Strategic Business Management and Marketing, the prospective student needs to have successfully completed at least the first three years of a professional bachelor's programme (management-related). Furthermore, students from the accelerated or short track can apply if they have successfully completed the entire curriculum (with the exception of the graduation year).

Article 8.5 Comparable previous education requirements

- 1 The Executive Board can determine that a prospective student with a diploma that does not meet the requirements as referred to in article 8.3 will be enrolled on the condition that requirements that are comparable as regards content are met as it appears from an assessment in the form of an established Previously Acquired Competences (EVC)³⁰ track. These requirements relate to knowledge, insight and skills that may have been acquired by the end of a bachelor's programme.
- 2 The Executive Board grants exemption from the previous education requirements as referred to in article 8.3 to the holder of a diploma obtained in the Netherlands or abroad that is at least comparable to the previous education requirements as referred to in article 8.3. FC&S Student Office takes this decision under the mandate of the Executive Board.
- 3 The requirement that is included in article 8.6 applies to the prospective student who is admitted on the basis of the provisions of section 1 or section 2 of this article.

Article 8.6 Prospective students with previous education completed in a non-Dutch educational system attending English-taught programmes

- 1 The prospective student does not need to sit an English language test to be admitted to an English-taught master's programme at Breda University of Applied Sciences if the following requirements are met:
 - the prospective student, irrespective of their nationality, has completed a degree programme in one of the following countries, where the language of instruction was English: Australia, Canada (with the exception of Quebec), Ireland, New Zealand, the United Kingdom and the United States of America.
 - the prospective student - irrespective of their nationality - has obtained a diploma that is included on Nuffic's list of diplomas and one of their exam subjects was English (see appendix 6 for this list of diplomas).
 - the prospective student satisfies the previous education requirements on the basis of a regionally accredited US Highschool diploma, an International Baccalaureate (IB) diploma, GCE A(S) level certificates issued by AQA, Pearson, OCR or Cambridge or the European Baccalaureate certificate (English Language 1 or 2).
- 2 The prospective student that does not meet the requirements as referred to in section 1 needs to have obtained the attendant minimum score for one of the following tests to be admitted to an English-taught master's programme at Breda University of Applied Sciences:

³⁰ There is currently an established Previously Acquired Competences (EVC) track in place for the part-time Master MMI.

- IELTS Academic test
The minimum score that needs to be obtained is:
 - total score 6.0
 - speaking 6.0
- TOEFL iBT test
The minimum score that needs to be obtained is:
 - internet-based (iBT) 80
 - speaking 20

Cambridge English Qualification results (B2 First, C1 Advanced or C2 Proficiency).

The minimum score that must be obtained is:

- total score 169
- speaking 169

- 3 Contrary to the provisions in section 2, the following minimum scores apply to the prospective student who opts for the pre-master's programme and the Master of Science Leisure and Tourism Studies:

- IELTS Academic test
The minimum score that needs to be obtained is:

total score	6.5
speaking skills	6.0
reading skills	6.0
writing skills	6.0
listening skills	6.0

- TOEFL iBT test
The minimum score that needs to be obtained is:

internet-based test (iBT)	90
speaking skills	20
reading skills	20
writing skills	20
listening skills	20

Cambridge English Qualification results (B2 First, C1 Advanced or C2 Proficiency).

The minimum score that needs to be obtained is:

- | | |
|-------------|-----|
| total score | 180 |
| speaking | 169 |

Article 8.7 Enrolment

- 1 Enrolment must have been finalised before 1 September of the relevant academic year.
- 2 Enrolment cannot come into effect with retroactive force. Furthermore, explicit permission must be obtained from the academy director to enrol after 1 September.

Chapter 9 Re-enrolment

- 1 Every student needs to re-enrol for their degree programme through Studielink annually. The student is informed through Studielink when the possibility to enrol has been opened by Breda University of Applied Sciences. Furthermore, FC&S Student Office will inform students about this through other media.
- 2 If the student wants to enrol on a different programme from the one they were enrolled on in the previous year, the provisions as referred to in chapter 5 apply. This type of student is also referred to as a switcher.
- 3 Re-enrolment is only possible if no negative binding recommendation regarding the continuation of studies has been received for the relevant programme.
- 4 Contrary to section 3, it is possible to re-enrol if the student can demonstrate that such a negative binding recommendation regarding the continuation of studies has been withdrawn or annulled.
- 5 Only requests for re-enrolment that have been made before 1 September are dealt with.
- 6 Enrolment cannot come into effect with retroactive force.
- 7 Enrolment needs to have been completed before 1 September of the relevant academic year. If this requirement has not been met, the student's network account is blocked and they are denied access to facilities of the institute.
- 8 Contrary to the provision in section 7 this date can be deviated from with the express approval of the academy director. The student is advised to seek advice from the student counsellor of the department about this matter. The provision in article 4.7 section 1 applies to this student.
- 9 The provisions concerning payment of tuition fees as referred to in chapter 4 are also applicable.

Chapter 10

Application and enrolment as an extraneus

WHW article 7.36

A person who wants to enrol as an extraneus for a degree programme of Breda University of Applied Sciences needs to ask for the academy director's approval of the academy of which the degree programme is a part. Enrolment as an extraneus only gives a student the right to sit interim examinations and final exams of the degree programme.

An extraneus pays examination fees. The amount of these examination fees is determined by the Executive Board. The examination fee needs to be paid as a lump sum prior to enrolment.

An extraneus student has no right to a refund of (parts of) the examination fee.

Chapter 11 Rejection, cancellation and termination of enrolment

Article 11.1 Cancellation of enrolment before start of academic year

- 1 Those students enrolled on a degree programme of Breda University of Applied Sciences can cancel their enrolment until 1 September of the relevant academic year.
- 2 A request to that purpose needs to be submitted through Studielink before 1 September.
- 3 When a student cancels their enrolment as is referred to in the sections above, they do not need to pay (part of) the tuition fee due.

Article 11.2 Termination of enrolment at the student's request (during the academic year)

- 1 A student who wants to terminate enrolment on a degree programme needs to file a request to that purpose through Studielink.
- 2 After filing this request, the student is requested to react to some questions. Breda University of Applied Sciences will use the answers to these questions to improve the quality of education.
- 3 The Executive Board terminates enrolment as a student with effect of the month as indicated in the request as referred to in section 1 provided that enrolment cannot be terminated at an earlier time than the month following the month in which the request was received.
- 4 In the event that a student has passed the examination, enrolment is not automatically terminated. If this student wants to terminate enrolment, the provisions in section 1 and section 3 of this article are applicable.
- 5 The student is responsible at all times for terminating their student grant if they have any, and timely terminating the Student Travel Product³¹ on their *Studenten OV Chipkaart*.
- 6 After submitting a request to terminate their studies, the student can no longer change the month in which termination of enrolment actually takes effect.
- 7 Breda University of Applied Sciences informs the person involved, Studielink and DUO about the termination of enrolment.
- 8 If a Tuition Fee Payment Receipt has been given by Breda University of Applied Sciences, enrolment will not be terminated until - in the case of a hard copy of the TFPR - this original TFPR is submitted to Breda University of Applied Sciences.
- 9 To terminate enrolment the provisions as referred to in article 4.7 section 2 and section 3 are applicable.

Article 11.3 Rejection, cancellation and termination of enrolment by order of the Executive Board

- 1 The Executive Board rejects enrolment if the requirements and conditions included in these regulations are not met.

³¹ For travelling to and from the university/university town the student can file a request for a travel product to DUO. This travel product needs to be uploaded onto the personal *OV-chipkaart*.

- 2 The Executive Board may reject or withdraw enrolment if there is a well-founded fear that the person involved will misuse their enrolment and the rights pertaining to it by seriously damaging the true character of Breda University of Applied Sciences.
- 3 The Executive Board can terminate or reject enrolment in a degree programme if the student has proved – by their actions or statements – to be unsuitable for carrying out one or more professions for which they are trained, and/or practical training to prepare for carrying out these professions. Such a decision can also be made on the basis of well-founded advice given by the board of examiners.
- 4 The Executive Board terminates enrolment as from the first month following the month in which one of the following circumstances has occurred:
 - a binding rejection (WHW article 7.8b paragraph 3);
 - serious fraud. The Executive Board will terminate enrolment after the board of examiners has made a proposal for this purpose (WHW article 7.12b paragraph 2);
 - not respecting the principles and aims of the institution, provided that students have an opportunity to attend the degree programme at another institution (WHW article 7.37 paragraphs 5 and 6);
 - serious recommendation given after carefully weighing the interests of all those concerned by a board of examiners and/or student counsellor, from which it appears that a student has shown, by their behaviour or statements, that they are unsuitable for carrying out one or more professions they were trained for during the degree programme they attended (WHW article 7.42a);
 - violation of the institute's internal rules and disciplinary measures (WHW article 7.57h);
 - not meeting his payment obligations (article 7.42, paragraphs 2 and 5 of the WHW).
- 5 The Executive Board rejects enrolment if (part of) tuition fees due for one or several past academic years have not been paid.
- 6 The Executive Board immediately withdraws enrolment if it appears that it has taken place on the basis of facts that do not meet the requirements as referred to in chapter 2 or chapter 3.

Chapter 12 Legal Protection

Article 12.1 General

- 1 Breda University of Applied Sciences has a clear and accessible facility, the Complaints Service Point. This digital service point can be accessed via the SelfServiceDesk. Persons concerned can submit complaints, appeals or objections to this Service Point online.
- 2 By persons concerned as referred to in section 1 of this article, we mean staff members, students, prospective students, former students, extraneous students, prospective extraneous students and former extraneous students.
- 3 If the digital Complaints Service Point offers insufficient information or in the case of a general question regarding the legal protection of students, staff members or prospective students, it is also possible to send an e-mail to ComplaintsServicePoint@buas.nl.

Article 12.2 Complaint

- 1 The time frame for submitting a complaint is one year, from the moment when the behaviour to which the complaint relates occurred. The date of receipt of the complaint will be decisive to determine if the complaint has been received in time.
- 2 After the person concerned as referred to in article 12.1 section 2 has submitted the complaint to the Complaints Service Point, a confirmation of receipt will be sent to the complainant and the complaint will be forwarded to the responsible (academy) director concerned or in the case of unwanted conduct, to a confidential counsellor.
- 3 Complaints will be dealt with within six weeks after receipt.
- 4 Breda University of Applied Sciences will deal with complaints with analogous application of title 9.1 of the Dutch General Administrative Law Act.
- 5 Complaints concerning unwanted conduct can be submitted on the grounds of the Complaints Regulations regarding Undesired Behaviour.
- 6 Abuse or suspected abuse can be reported to the relevant academy director or the Executive Board pursuant to the [Regulations Related to Suspected Irregularities](#) (Whistleblowers' Regulations).

Article 12.3 Appeal

- 1 A current or prospective student/extraneous student may lodge an appeal against a decision or omission of examiners or the board of examiners with the Examinations Appeals Board (article 7.60 of the WHW). Decisions which can be appealed against (see article 7.61 of the WHW) concern decisions relating to:
 - the negative binding study recommendation,
 - the number of credits earned,
 - exemption requests,
 - admission to examinations,
 - decisions by boards of examiners and examiners,
 - admission to a degree programme on the grounds of a 21+ test or a deficiency test
 - admission to master's programmes.

- 2 The appeal as referred to in section 1 has to be submitted within a time frame of six weeks after the date of the decision to the Examinations Appeals Board via the Complaints Service Point of Breda University of Applied Sciences. Before taking the case into consideration, the Examinations Appeals Board will send the appeal to the person who made the decision appealed against, in order to try to reach amicable settlement in consultation with the person who submitted the appeal.
The procedure that applies here is described in the [Rules of Procedure of the Examination Appeals Board](#) of Breda University of Applied Sciences.
- 3 Decisions of the Examinations Appeals Board may be appealed against. An appeal can be lodged to the Council of State, Administrative Jurisdiction Division. No appeal may be lodged against the decision by the Council of State.

Article 12.4 Objection

- 1 Against decisions or omissions made by or on behalf of the Executive Board, current and prospective students and extraneous students will have the right to file an objection to the Dispute Resolution Committee. This includes decisions made by an academy director. It involves decisions with regard to:
 - admission into the degree programme,
 - enrolment,
 - rules of conduct and disciplinary measures,
 - allowances based on the [Profiling Fund Regulations](#),
 - tuition fee refunds.These are decisions that do not fall under the decisions as referred to in article 12.3 section 1.
- 2 The objection, as referred to in section 1, has to be submitted within a time frame of 6 weeks after the date of the decision via the Complaints Service Point of Breda University of Applied Sciences to the Dispute Resolution Committee. This committee will look into the possibility of the parties reaching amicable settlement. If this is impossible, the Dispute Resolution Committee will issue advice on the objection to the Executive Board. The Executive Board will then decide on the objection. This objection procedure is stated in the [Regulations pertaining to the Dispute Resolution Committee](#).
- 3 An appeal against decisions of the Executive Board, based on the advice of the Dispute Resolution Committee, may be lodged to the Council of State, Administrative Jurisdiction Division. No appeal may be lodged against the decision by the Council of State.

Appendix 1 Selection procedure of bachelor's programmes

This appendix addresses the rules for applying for degree programmes with a selection procedure:

- 1 Creative Media and Game Technologies
- 2 Hotel Management
- 3 Creative Business
- 4 Applied Data Science & Artificial Intelligence

1 Creative Media and Game Technologies

For enrolment in this degree programme, Breda University of Applied Sciences can select candidates (because of the special feature of small-scale and intensive education). After applying for the programme via Studielink the 1st of May at the latest, the prospective student receives an ID code (student number) from the institute.

Application procedure for students with a diploma from a Dutch educational institution

Step 1

Enrol via Studielink - The application and enrolment portal for study programmes in Dutch higher education

Once you have submitted your application via Studielink, you will receive an e-mail from Breda University of Applied Sciences with hyperlinks of the different variations in Microsoft Teams.

You can track the status of your application on your personal Studielink page.

Step 2

Via the online application portal of Breda University of Applied Sciences you will be given the opportunity to choose which of the variants of CMGT you wish to apply for. You will then receive access to that variant's intake assignment and template.

Application procedure for students with a diploma from a NON-Dutch educational institution

Step 1

Enrol via Studielink - The application and enrolment portal for study programmes in Dutch higher education

Once you have submitted your application in Studielink, you will receive an e-mail from Breda University of Applied Sciences with a hyperlink to the online application portal <My Online Application> (Osiris Aanmeld). Instructions on how to log in and steps to take, are included in the email.

You can track the status of your application on your personal Studielink page and in the progress overview in <My Online Application>

Step 2

Apply via the Online application portal of Breda University of Applied Sciences

In <My Online Application> you will be requested to:

- a) Upload your application documents, namely:
 - CV (in English),
 - Copy of your ID card - passport
 - Secondary school diploma including list of grades (and translation in case these documents are not in one of the following languages: English, French, German or Dutch) or your most recent list of grades if you have not obtained your diploma yet.

As soon as the Educational and English language requirements have (conditionally) been approved and the personal details have been verified, you will be given the opportunity to choose which of the variants of CMGT you wish to apply for. You will then receive access to that variant's intake assignment and template.

Step 3: CMGT Selection procedure

General information preselection and selection moments

Preselection is based on a submitted assignment and portfolio per discipline and is graded with yes/no. Based upon a review of their portfolio assignment it will be decided if the applicant is invited for an interview or not. We strongly suggest applicants to apply as soon as they can to be able to finish the portfolio assignment in time.

If the follow-up steps have been finalised before 10 January, applications with a positive reviewed assignment will be offered a live assessment moment in early February. If the follow-up steps have been finalised after 10 January, but before 15 May, applications with a positive reviewed assignment, will be offered a live assessment moment in June.

The outcome of the interview will be shared within 10 working days after it took place and can be either 'selected', 'waiting list' or 'not selected'. Participating in one of the early interview moments will make sure the applicant can secure a spot early and/or will be able to plan their next steps. The final deadline for delivering the portfolio assignment is the 15th of May, with a final round of interviews end of May.

The prospective student will be informed no later than 20 June whether they are selected for this degree programme or not.

To secure the special feature small-scale and intensive education, no more than 180 students will be selected.

CMGT Selection Procedure: Portfolio Assignment, Interview, and Criteria

The assignments per variation (listed below) are mandatory unless your portfolio clearly demonstrates all areas the assignment covers. The specific assignments are given when you access the assessment website.

The actual selection procedure distinguishes between the four variants within CMGT:

- a. Programming
- b. Design and Production
- c. Visual Arts
- d. Film VFX

The selection procedure is as follows:

1. Variation Assignment/Tests and/or Portfolio

2. Pre-Selection

- a. Preliminary assessment will be based on the quality of the submitted assignment
- b. Applicants that pass the pre-selection will be invited for an interview.

3. Interview-Assessment weighting per discipline and question guidelines

- a. **Motivation (DP: 20%, VA: 15%, PR: 15%, FVFX: 15%)**
 - i. We provide small-scale and intensive education. This means that we expect a 40 hours per week commitment to your study, strong teamwork, engagement in regular (1-on-1) feedback sessions, the ability to study independently, an interest in extra-curricular activities and a proactive attitude. Do you fit this profile? Explain why.
 - ii. How much time did you spend on the assignment?
 - iii. How did you prepare? What learning resources did you use?
- b. **Communication (DP: 20%, VA: 15%, PR: 15%, FVFX: 15%)**
 - i. Ask them to explain their assignment
 - ii. Is the applicant proficient in English?
 - iii. Can the applicant answer our questions clearly and concisely?
- c. **Reflection (DP: 20%, VA: 10%, PR: 10%, FVFX: 10%)**
 - i. What aspect of the assignment of the game did you like the most?
 - ii. What did you learn from making the assignment?
 - iii. What would you improve if you had more time?
- d. **Portfolio + assignment – Skills & Knowledge (DP: 40%, VA: 60%, PR: 60%, FVFX: 60%)**
 - i. Quality of the assignment
 - ii. Examples of your best work
 - iii. Skills and knowledge you already have (including previous education)

Interview assessment will be based on delivery, any additional work shown and questions to assess suitability for the programme.

Selecting students

Pre-selection applicants will get a simple yes or no reply. Interviewed applicants will be assessed based on the above criteria and ranked. For each two intake moments the cut-off point per discipline will be discussed based on quality and yearly department quotas of applicants.

2 Hotel Management

One of the aims of Breda University of Applied Sciences is to recruit enthusiastic, motivated and qualified students from the Netherlands and abroad for its inspiring Hotel Management programme! Over the years we have been able to successfully attract and select students originating from a large variety of countries. We strongly believe that our programme benefits from bringing together students and staff from different cultural backgrounds.

Application

Additional requirements as referred to in article 7.26 WHW are applicable for enrolling in this study programme. The academy is allowed to select all its students. You can apply the 1st of May at the latest.

Selection Criteria

Besides the formal admission requirements, there are several selection criteria. First and foremost, we are looking for *intrinsically motivated* individuals. Potential students that have *affinity with the hospitality industry* and/or proven work experience in this industry. Other selection criteria include *personal qualities* such as: analytical skills, understanding of commercial matters, social intelligence, service-oriented attitude, innovative mindset, communication skills, independence and entrepreneurial spirit. In addition to this, applicants must demonstrate *proficiency in English*. We will also discuss the level of the one of the following second foreign languages (German, French or Spanish). Please note that we reserve the right to select only those candidates we think will be likely to succeed based on the selection criteria.

Selection elements and selection criteria

	Intrinsic Motivation	Affinity with Hospitality	Personal Qualities	English
Curriculum Vitae	X	X	X	X
Motivation letter	X	X	X	X
NOA assessment	X		X	X
Personal Pitch	X	X	X	X
Selection interview	X	X	X	X

**Application procedure for students with a diploma
from a Dutch educational institution**

The application procedure consists of four steps:

- 1 Enrol via Studielink, the national administration system for higher education in the Netherlands;
- 2 Apply via the Online application portal of Breda University of Applied Sciences;
- 3 Take part in the selection day on campus;
- 4 Complete the registration; payment of tuition fee (when the student has been selected).

Step 1

Enrol via Studielink - The application and enrolment portal for study programmes in Dutch higher education

When you meet the formal admission requirements for the programme, you will receive an e-mail from Breda University of Applied Sciences with a hyperlink to their online application portal <My Online Application> (Osiris Aanmeld). Instructions on how to log-in and steps to take, are included in the email. You can track the status of your application on your personal Studielink page and in the progress overview in <My Online Application>

Step 2

Apply via the Online application portal of Breda University of Applied Sciences

In <My Online Application> you will be requested to:

- a) Upload your application documents, namely:
 - A complete CV (in English),
 - Motivation letter in English,
 - Secondary school diploma including list of grades or your most recent list of grades if you have not obtained your diploma yet.
- b) Select an available date to participate in one of the selection days

After submitting your application package, no later than 1 May, your application package will be screened. You only will be invited to a selection day at BUas campus if the package is up to standard. Please note that the invitation is only sent when your application package is complete! Along with this invitation, you will receive log-in details to:

- c) Complete an online Assessment test (NOA)
- d) Complete an online English test.

You will be asked to do both tests at home before the selection day. Furthermore, you are asked to:

- e) Prepare a personal 'pitch' for the selection interview

Step 3

Take part in the selection day on campus (face-to-face);

The selection day consists of several parts:

- a) Introduction to BUas Hotel Management programme;
- b) Selection interview
 - You will start with a personal pitch in which you have the chance to introduce yourself,
 - The results of the English test and personality test will be discussed;

- An interview with the selection committee in which e.g. your motivation, (international) hospitality experience, your fluency in English and personal traits and characteristics are discussed.
- c) Tour of the building / campus

Step 4

Complete your registration; payment of tuition fee (when you have been selected).

Within two weeks after the selection day, you will be notified whether or not you have been accepted to the programme. In order to complete your registration, you need to confirm your digital authorisation or pay your tuition fee.

Application procedure for students with a diploma from a NON-Dutch educational institution

The application procedure consists of four steps:

- 1 Enrol via Studielink, the national administration system for higher education in the Netherlands;
- 2 Apply via the Online application portal of Breda University of Applied Sciences;
- 3 Wait for the selection outcome: your documents will be assessed - the selection procedure;
- 4 Complete the registration; payment of tuition fee (when the student has been selected).

Step 1

Enrol via Studielink - The application and enrolment portal for study programmes in Dutch higher education

When you meet the formal admission requirements for the programme, you will receive an e-mail from Breda University of Applied Sciences with a hyperlink to their online application portal <My Online Application> (Osiris Aanmeld). Instructions on how to log-in and steps to take, are included in the email. You can track the status of your application on your personal Studielink page and in the progress overview in <My Online Application>

Step 2

Apply via the Online application portal of Breda University of Applied Sciences

In <My Online Application> you will be requested to:

- b) Upload your application documents, namely:
 - CV (in English),
 - Motivation letter in English,
 - Copy of your ID card – passport,
 - Secondary school diploma including list of grades (and translation in case these documents are not in one of the following languages: English, French, German or Dutch) or your most recent list of grades if you have not obtained your diploma yet,
 - You will be requested to upload a personal video message, to convince us that you are the right candidate for the programme (selection procedure). The video should be English spoken, representative and no longer than four minutes. You are free to choose your own structure and content, but please have a close look at the criteria that we use to assess the quality of your video application. If BUAs would like to have more information about your application they could invite you to take a skype interview as well.

As soon as the application package is complete (the documents are screened for eligibility, the educational background, and the language proficiency (English), the video message will be assessed by the academy.

Step 3

Wait for the selection outcome: your documents will be assessed - the selection procedure

We would like to invite you to introduce yourself and to share your motivation for studying at our University by means of an application video.

Selection criteria

Besides the formal admission requirements, there are several selection criteria. First and foremost, we are looking for *intrinsically motivated* individuals. Potential students that have *affinity with the hospitality industry* and/or proven work experience in this industry. Other selection criteria include *personal qualities* such as: analytical skills, understanding of commercial matters, social intelligence,

service-oriented attitude, innovative mindset, communication skills, independence and entrepreneurial spirit. In addition to this, applicants must demonstrate proficiency in English.

Topics that could be discussed in the video message:

Your motivation:

Why did you choose to study in the Netherlands, what are your reasons for choosing our university and why hotel management?

What can you tell us about the content of the education at the Academy for Hotel & Facility?

Prior developed knowledge and skills:

What (work)experience in hospitality have you gained? Have you been working or studying abroad?

Tell us about your previous education (about the level and the course), language, skills, experience in group work and presentations.

Strong points / development points:

What do you want to develop further and what do you need to improve?

Miscellaneous:

Are you financially able to study in the Netherlands? Do you need a study Visa?

Have you thought about alternatives (plan B) in case you will not get accepted and what are these alternatives?

Step 4

Complete your registration; payment of tuition fee (when you have been selected).

Within two weeks after the selection day, you will be notified whether or not you have been accepted to the programme. In order to complete your registration, you need to confirm your digital authorisation or pay your tuition fee.

Creative Business

(For students with a diploma from a Dutch educational institution)

Introduction

Creative Business carries the special feature 'Small-scale and intensive education' and is therefore allowed to select its 180 students. You can apply for this programme 1 May at the latest. The application and selection procedure consists of four steps.

Step 1. Enrol via Studielink.

Studielink is the application and enrolment portal for study programmes in Dutch higher education. Enter your personal details and make an enrolment request. Once you have made an enrolment and you meet the formal application requirements, you will receive an email from Breda University of Applied Sciences with a hyperlink to the selection/assessment website. This email also gives instructions about login details and follow-up steps.

Step 2. Participate in the selection procedure.

After application for the programme via Studielink, the applicant receives an email from the institute within one week containing a hyperlink to the selection website (also referred to as assessment website). This email also gives instructions about login details and follow-up steps.

The applicant will be assigned the following tests and assignments:

1: application letter (online).

2: résumé (online). The applicant can score on either work experience or degree programme.

3: study skills test (online). The study skills test consists of a questionnaire relating to general higher professional education skills (intrinsic goal orientation, extrinsic goal orientation, task value, self-check, self-effectivity for learning, fear of testing, cognitive learning strategies, learning management strategies).

The applicant indicates what he thinks about various statements on a 7-point scale ranging from 'totally disagree' to 'totally agree'.

4: previous knowledge test (online). The previous knowledge test is an online multiple-choice test asking questions (on a basic level) about the various subjects dealt with in the programme. The test is [administered](#) online and is assessed on a 1 to 10 scale.

Step 3. Participate in a selection interview (at Breda University of Applied Sciences or via Teams).

5: interview

Assignments 1 to 4 need to be finalised before 10 January or by 15 May at the latest. Everybody who has finalised the full online part of the assessment can choose their live selection moment on the assessment website. If the follow-up steps have been finalised before 10 January, applicants can choose both the early (February) and the late live assessment moments (May/June). If the follow-up steps have been finalised after 10 January, they can choose only the late live assessment moments (May/June).

Interviewed applicants will be assessed based on the criteria below and ranked. The following matters will be discussed during the interview:

- why Breda University of Applied Sciences?
- why Creative Business?
- orientation (Open Day/Orientation Day)
- questions about developments in the media industry
- questions about expectations of the degree programme
- questions to form a picture of the profession

Applicants who have participated in the early live assessment moment and have obtained a high total score will be selected. Prospective students who have obtained a medium high score might be placed on a waiting list.

The latest date the applicants are informed about the results is 28 February.

STAGE 1: 50%	Max points
Application letter (max. 100 points)	
Completeness of the letter	10
English language proficiency	20
Motivation for choosing Creative Business. We provide small-scale and intensive education. This means that we expect a 40 hours per week commitment to your study, strong teamwork, engagement in regular (1-on-1) feedback sessions, the ability to study independently, an interest in extra-curricular activities and a proactive attitude. Explain why you fit this profile.	20
Formulate a good picture of the industry	20
Structure of the letter	20
Logical connection with activities carried out in the past	10
Resume (max. 100 points)	
General experience	20
Work experience	20
Creativity (AV/web/music, etc.)	20
Computer skills	20
Other matters that cannot be related to the above points	20
Study skills test (max. score 10)	10
Previous knowledge test (max. score 10)	10
Stage 2 50%	
Interview (max. 100 points)	
Motivation/Argumentation why this study	20
Professional image	20
Communication skills and presentation	20
Image of the degree programme	20
English proficiency	20

All the results obtained will be collected and translated into a 100-point scale. A low score for one of the parts may be the decisive factor for rejecting an applicant.

The applicant will be informed no later than 1 July whether he is selected for this degree programme or not.

Step 4. Complete the registration and pay tuition fee.

If selected, accept the offer, and pay the tuition fee to complete the registration.

Creative Business

(For students with a diploma from a non-Dutch educational institution)

Introduction

Creative Business carries the special feature 'Small-scale and intensive education' and is therefore allowed to select its 180 students. You can apply for this programme 1 May at the latest. The application and selection procedure consists of five steps.

Step 1. Enrol via Studielink.

Studielink is the application and enrolment portal for study programmes in Dutch higher education. Enter your personal details and make an enrolment request. Once you have made an enrolment and you meet the formal application requirements, you will receive an email from Breda University of Applied Sciences with a hyperlink to 'My Online Application', the online application portal of Breda University of Applied Sciences. Instructions on how to log-in and steps to take are included in the email.

You can track the status of your application on your personal Studielink page and in the progress overview in My Online Application.

Step 2. Apply via My Online Application.

My Online Application is the online application portal of Breda University of Applied Sciences. If you are admissible, you receive an invitation to take part in an online assessment.

In My Online Application you will be requested to upload your application documents:

- CV (in English).
- Motivation letter (in English).
- Copy of your ID card / passport.
- Secondary school diploma including list of grades (and translation in case these documents are not in one of the following languages: English, French, German or Dutch) or your most recent list of grades if you have not obtained your diploma yet.
- English test results (if applicable).

As soon as the educational and English language requirements have (conditionally) been approved and the personal details have been verified, you will receive an invitation via email to participate in the selection procedure.

Step 3. Participate in the selection procedure.

The applicant will be assigned the following tests and assignments:

1: application letter (online). (Already uploaded in step 2)

2: résumé (online). The applicant can score on either work experience or degree programme. (Already uploaded in step 2)

3: study skills test (online). The study skills test consists of a questionnaire relating to general higher professional education skills (intrinsic goal orientation, extrinsic goal orientation, task value, self-check,

self-effectivity for learning, fear of testing, cognitive learning strategies, learning management strategies).

4: previous knowledge test (online). The previous knowledge test is an online multiple-choice test asking questions (on a basic level) about the various subjects dealt with in the programme. The test is [administered](#) online and is assessed on a 1 to 10 scale.

A low score for one of the parts may be the decisive factor for rejecting an applicant.

Step 4. Participate in a selection interview (at Breda University of Applied Sciences or via Teams).

5: Interview

As soon as assignments 3 and 4 are finished the applicant will be invited for an online interview (if they prefer, they can come to our Campus for the interview).

Interviewed applicants will be assessed based on the criteria below and ranked.

The following matters will be discussed during the interview:

- why Breda University of Applied Sciences?
- why Creative Business?
- orientation (Open Day/Orientation Day)
- questions about developments in the media industry
- questions about expectations of the degree programme
- questions to form a picture of the profession

Applicants will be informed about the final decision within one week after the interview.

Stage 1 50%	Max points
Application letter (max. 100 points)	
Completeness of the letter	10
English language proficiency	20
Motivation for choosing Creative Business. We provide small-scale and intensive education. This means that we expect a 40 hours per week commitment to your study, strong teamwork, engagement in regular (1-on-1) feedback sessions, the ability to study independently, an interest in extra-curricular activities and a proactive attitude. Explain why you fit this profile.	20
Formulate a good picture of the industry	20
Structure of the letter	20
Logical connection with activities carried out in the past	10
Resume (max. 100 points)	
General experience	20
Work experience	20
Creativity (AV/web/music, etc.)	20
Computer skills	20
Other matters that cannot be related to the above points	20

Study skills test (max. score 10)	10
Previous knowledge test (max. score 10)	10
Stage 2 50%	
Interview (max. 100 points)	
Motivation/Argumentation why this study	20
Professional image	20
Communication skills and presentation	20
Image of the degree programme	20
English proficiency	20

All the results obtained will be collected and translated into a 100-point scale. A low score for one of the parts may be the decisive factor for rejecting an applicant.

Step 5. Complete the registration and pay tuition fee.

If selected, accept the offer, and pay the tuition fee to complete the registration.

Applied Data Science & Artificial Intelligence (ADS&AI)

For enrolment in this degree programme, Breda University of Applied Sciences selects candidates (because of application for the distinctive feature of small-scale and intensive education). Selection is based upon a portfolio assignment and interview to determine the eligibility of the applicant.

To apply to come and study with us you need to register via Studielink ultimately on 1 May at the latest, where you will receive an ID code (student number) from the institute. As soon as we are notified of your Studielink application, we will confirm if you meet the entry requirements for the programme ([see here](#)). Given that you meet the entry requirements you will receive an email that will give access to our intake team in MS Teams that will be used for the follow-up steps.

To opt for an interview the applicant turns in their portfolio assignment in the template as provided in Teams. Based upon a review of their portfolio assignment it will be decided if the applicant is invited for an interview. We strongly suggest applicants to apply as soon as they can to be able to finish the portfolio assignment in time. Interviews will be done monthly from January 2024.

Applicants can make use of several interview moments but are limited to one opportunity. The outcome of the interview will be shared within ten working days after it took place and can be either 'selected', 'waiting list' or 'not selected'. Participating in one of the early interview moments will make sure the applicant can secure a spot early and/or will be able to plan their next steps. The final deadline for delivering the portfolio assignment is 15 May, with a final round of interviews end of May.

The prospective student will be informed no later than 20 June whether she/he is selected for this degree programme or not.

To guarantee the quality of the small-scale and intensive education, no more than 100 students will be selected.

ADS&AI Portfolio Assignment, Interview, and Criteria

In order to secure an interview spot, the applicant needs to deliver an assignment that meets the requirements. The specific requirements will be shared on the BUAs website and in the intake team in MS Teams. A presentation template will be provided that the applicant needs to complete. As part of the procedure, potential students do the [National AI Course](#), and deliver proof of having done this by including their certificate.

The assignment and interview will be graded according to three main criteria:

- a. 30% Motivation, this will cover subjects like; why this study, what about your future career, what about your future goals, and how does ADS&AI fit into that?
- b. 20% Suitability, this will cover subjects like; teachability, communication and writing skills in English, your best example of teamwork, what other pursuits/passions/hobbies do you have, and will you be taking part in the extra-curricular activities organized by our students and lecturers?
- c. 50% Aptitude, skills, and knowledge, this will cover the requirements for the portfolio assignment (result from the National AI Course), proven skills in Mathematics, Statistics and IT/Programming best examples of work and skills/knowledge you already have.

Students with a score > 70% are selected, with a score 60%-70% put on a waiting list and with a lower score rejected.

Appendix 2 Study choice activities for bachelor's programmes (including Associate degree)

hbo/wo (bachelor's) programme	Study choice activity	Application deadline
	<i>All study choice activities are mandatory unless specified otherwise</i>	
B Tourism Management Ad Tourism Management B Leisure & Events Management B Facility Management B Built Environment B Logistics Management B Logistics Engineering	Study choice activities: - filling in online self-reflection questionnaire (in advance) ³² + participating in matching day <i>or</i> - filling in online self-reflection questionnaire (in advance) 32 ³² + light homework (e.g. reading an article, watching a knowledge clip) + online matching day	Application deadline: 1 May 2024
B Creative Business B Hotel Management B Creative Media and Game Technologies B Applied Data Science & Artificial Intelligence	Selection procedure (see Appendix 1)	Application deadline: 1 May 2024 Selection results: mid-June 2024 at the latest
B Tourism	- Online matching ³³ - Individual interview (non-mandatory)	Application deadline: 1 May 2024 Apply to Wageningen University
B Leisure Studies ³⁴	- Motivation letter - Orientation day (non-mandatory) ³⁵ - Taster days (non-mandatory, upon request) - Individual interview (non-mandatory, upon request)	Advice: apply 1 May 2024 at the latest Applying after 1 May is possible ³⁶

³² The online assessment addresses personal and background details, competencies, English (depending on (previous) education), interests and preparation for taster day/matching.

³³ For actual information, see the website of Wageningen University (www.wur.nl).

³⁴ The bachelor's programme is registered in CROHO as bachelor's programme in *Vrijetijdwetenschappen*.

³⁵ For students with previous education abroad (and for students who cannot attend the orientation day) the orientation day could be replaced by a phone/Skype call.

³⁶ Study choice activities if student applies after 1 May: a motivation letter (mandatory) and an individual interview (in Breda or by telephone/Skype [not mandatory]).

³⁷ Although additional subject requirements are no longer made, it would certainly benefit students if they have economics, management & organisation or business economics in their set of subjects.

Appendix 4 Admission requirements for short 3-year hbo track

Bachelor's programmes in Tourism Management, Leisure & Events Management, Hotel Management and Creative Business.

A tailor-made track for *havo* graduates is offered for bachelor's programmes in Tourism Management, Leisure & Events Management, Hotel Management and Creative Business in conjunction with De Rooi Pannen. After these students have obtained their *mbo* diploma, they can enrol on the short track of the relevant degree programme.

Other *havo* graduates with an *mbo*-4 diploma Horecaondernemer-/manager are also eligible for the 3-year track of Hotel Management. The prospective student, however, needs to participate in the selection procedure; see the [information](#) on the website of Breda University of Applied Sciences.

Bachelor's programmes offered by the Academy for Built Environment & Logistics

At the Academy for Built Environment & Logistics, the prospective student who has completed an *mbo* programme (at level 4) allowing them to transfer to a *hbo* bachelor's programme may be eligible for a short track.³⁸ On the basis of their *mbo* programme the prospective student may be granted exemptions, so that the bachelor's programme will be shortened to 3 years. It is mandatory to participate in the *mbo-hbo* transfer programme in the year prior to enrolment.

Professional degree programmes without a short track

The Creative Media and Game Technologies programmes, the Applied Data Science & Artificial Intelligence programme, the Facility Management programme and the Associate degree programme in Tourism Management do not offer any short track to the prospective student who is an *mbo* graduate.

³⁸ For more information on these short tracks, visit the website of Breda University of Applied Sciences (www.buas.nl)

Appendix 5 Admission assessments

hbo/wo- (bachelor's) programme	Deficiency test havo/vwo Cost: depending on supplier of the test	21+ plus test Cost: 150 euro Dates: 1 February, 4 April, 23 May ³⁹ 2024

Appendix 7 Intake procedures of master's programmes⁴⁶

General information about the application procedure

The application procedure consists of the following steps:

- Step 1: Enrol via Studielink
- Step 2: Apply via *My Online Application*, the online application portal of BUas
- Step 3: Take part in the intake procedure of the master's programme
- Step 4: Complete the enrolment; payment of tuition fee

Step 1 Enrol via Studielink

After applying for the programme via Studielink, the prospective student receives an ID code (student number) from the institute. Once BUas has received the Studielink enrolment, the applicant will receive an e-mail inviting to follow up on their Studielink enrolment by applying in *My online application*.

Step 2 Apply via My Online Application, the online application portal of BUas

In *My online application* the applicant will be requested to answer additional questions and to upload the application documents;

- ID
- The bachelor documents including transcript of records or a transcript of records with the latest results / overview in case the bachelor's diploma is not yet obtained
- Proof of English (*if applicable, check website*)
- CV
- Motivation letter
- A programme specific assignment (for more details see the intake procedure)

Once the admissions officer has checked the educational background of the applicant and the prospective student (conditionally) meets the educational and English language requirements, the academy will continue with the application and the selection procedure.

Step 3 Take part in the intake procedure of the master's programme

Each master uses its own specific intake criteria, see below.

Step 4: Complete the enrolment; payment of tuition fee

In order to complete your enrolment, make sure you have uploaded all the final documents (in the case of conditional admission). Furthermore, you need to confirm your digital authorisation or pay your tuition fee. [More information about payment of tuition fee](#).

Information about the intake procedure of the master's programmes

Breda University of Applied Sciences offers the following master's programmes:

- 1 Master Game Technology
- 2 Master Media Innovation (regular and executive programme)
- 3 Master Tourism Destination Management
- 4 Master Sustainable Outdoor Hospitality Management
- 5 Master International Supply Chain Management
- 6 Master Strategic Events Management
- 7 Master Imagineering
- 8 Master of Science Leisure and Tourism Studies (academic master's programme)

The intake procedure of each master's programme is described in this appendix.

⁴⁶ This information is only available in English.

1 Master Game Technology

Selection criteria

The prospective student will be assigned the following tests and assignments:

- 1: Motivation letter
- 2: CV/Résumé and diploma(s)
- 3: Portfolio (part of CV)
- 4: Programme specific assignment: Literature review
- 5: Selection interview (at Breda University of Applied Sciences or via Teams)

The first four items have been handed via *My online Application*.

Where points 1 and 3 are basic requirements, points 2, 4 and 5 are given a score; on the basis of the total score, it will be decided on whether to admit the prospective student or not. A low score, i.e., less than 10 points received for the literature review or interview may be the decisive factor for rejecting a prospective student, regardless of the total score obtained.

Assignments and criteria are stated below.

1 Motivation letter (required element, no score)

The application letter will be assessed on motivation and proficiency in the field of study.

2 Résumé and diploma(s) (required element, 25 points)

The résumé will be assessed on the experience of the applicant in the field of study, including the obtained bachelor's diploma(s). If the applicant has a CMGT diploma and/or relevant work experience, 25 points are awarded.

3 Portfolio (required element, no score)

The portfolio will be assessed on the quality and quantity of the previous work of the applicant in the field of study.

4 Programme-specific assignment: Literature review (50 points in total)

Literature reviews will be assessed according to the following 5 criteria (each 10 points)::

- Review is clear and focussed (or can be altered to meet this requirement).
- Reviewed topic is relevant, it tries to find solutions for current or future development challenges.
- Evidence of fundamental skills and knowledge in area of research is presented.
- Subject fits with expertise available within the games programme or ADE research.
- Subject shows interest and support from industry partner.

5 Interview (25 points)

As a final component, prospective students that have completed assignments 1 through 4 (with a minimum of 35 points on these steps, up to 55) will be invited for an interview. This interview is between the prospective student and 2 members of the Master Game Technology staff.

The following matters will be discussed during the interview:

- Why Breda University of Applied Sciences?
- Why Master Game Technology?
- Orientation (open day/orientation day).
- Questions about developments in the game industry.
- Questions about expectations of the study programme.

Example of intake scoring:

Master Game Technology application scoring matrix	CMGT Applicant with strong proposal	CMGT Applicant with weak proposal	BA with strong proposal	BA with weak proposal
CMGT/Work experience score (stage 2)	25	25	0	0
Literature review score (stage 4)	40-50	10-30	40-50	10-30
2+4 sum score	65-75	35-55	40-50	10-30
Action	Accepted without interview	Interview	Interview	Rejected without interview
Intake interview (stage 5)		10-25	10-25	
Final score		45-80	50-75	
Action		Accepted if score above 55	Accepted if score above 55	

General information

Intake

MGT applies a rolling intake. You can apply for this master's programme from 1 November to 15 August. Applications are reviewed in chronological order. Applying early is recommended.

Notification of admittance

Students will be notified whether they are admitted to the programme or will be invited for an interview within two weeks of the respective rounds review date.

In the case of an interview, the applicant will be informed whether they are admitted to the programme within five working days after the intake interview.

Minimum scores for admittance

All results obtained will be collected and translated into a 100-point scale. Applicants that score above 55 points will be informed they are admitted to the programme. If the applicant fails to reach 35 points before the interview stage the applicant is rejected. If the applicant completes the interview but does not score above the 55 points required for admission, the applicant is rejected.

Is there a maximum number of students?

Yes, in line with the apprentice-mentor model within the Master Game Technology programme, a limited amount of 28 students can be admitted to the programme.

Procedure in case of more suitable students

BUs will create a waiting list once the maximum of 28 placements is reached. If places fall free, whatever the reason, candidates on the waiting list will be allowed into the master's programme in chronological order.

2 Master Media Innovation

The selection process within the Master Media Innovation can, broadly, be separated into two phases; an initial selection phase (which follows the student office checks for eligibility and relies upon submission of written documentation) and an intake interview (conducted in person, or remotely, as a follow-up to the initial selection phase for promising candidates). The same selection process is used by both the full-time and the part-time variants of the programme. If the written material submitted indicates that the prospective student may potentially be suitable for the master's programme, they will receive an invitation for an intake interview.

Initial selection

The following items, handed via *My online Application*, will be used for the intake procedure:

1. Motivation letter
2. CV/Résumé
3. Programme-specific assignment: Written intake assignment

The items, and the manner in which they are assessed, are detailed below:

1. Motivation letter

The motivation letter allows the prospective student to express their reasons for applying to the programme. This document is assessed against the following criteria:

Criteria	0 POINTS	5 POINTS	10 POINTS
MOTIVATION LETTER Expression	Failure to provide lucid rationale for application. Writing contains a large number of errors with regard to grammar, spelling, and tense.	Reasonably clear rationale for application. Writing contains some errors with regard to grammar, spelling, and tense.	Extremely lucid motivation. Writing free from all but the most minor errors with regard to grammar, spelling, and tense.
MOTIVATION LETTER Content	Structure and discussion often relatively incoherent. Lack of clarity regarding the applicant's media interest.	Structure and discussion generally clear. The media interests of the applicant are generally clear.	Structure and discussion clear and persuasive. The media interests of the applicant are extremely clear.

2. CV/Résumé

The CV/résumé lists the educational and work-related experience of the prospective student and is assessed against the following criteria:

Criteria	0 POINTS	5 POINTS	10 POINTS
RESUME/CV Relevance of Degree	Degree demonstrates no clear relation to either media or innovation (for example, BA Ethnobotany, or BA Contemporary Circus with Physical Theatre).	Degree demonstrates a tangential connection to media and/or innovation but is not directly related to either (for example, BA Education Studies, or BA Art).	Degree demonstrates a direct relation to media and/or innovation (BA Media Studies, or BA Journalism).
RESUME/CV Media Experience	No experience of working within the media industry, either on a paid or a voluntary basis.	Minor experience of working within the media industry, either on a paid or a voluntary basis.	Clear experience of working within the media industry, either on a paid or voluntary basis.
RESUME/CV Media Interest	No clear indication of an interest in media with regard to hobbies, skills, interests, etc.	Some indication of an interest in media with regard to hobbies, skills, interests, etc.	Clear, strong, indication of an interest in media with regard to hobbies, skills, interests, etc.

3. Programme-specific assignment: Written intake assignment

The written intake assignment asks students to write an argumentative essay, in formal English with APA style citation and referencing, based upon one of three provided statements (which they can choose to argue either for or against). The prospective student is assessed against the following criteria:

Criteria	0 POINTS	5 POINTS	10 POINTS
WRITTEN ASSIGNMENT Word Count	Over or under the required word count by more than 75 words.	Over or under the required word count by less than 75 words.	Within the required word count.
WRITTEN ASSIGNMENT Academic Form	Grammatical conventions not followed through the document, numerous lapses into informal English and a high level of spelling errors that, in places, may have interfered with the comprehensibility of the document. Document poorly formatted and structured throughout. Inconsistencies in tense and perspective	While there may have been minor errors, the document followed normal conventions of spelling and grammar throughout with only minor lapses in formal English. Errors did not significantly interfere with the comprehensibility of the document. Document generally well formatted and structured throughout. Only the most minor inconsistencies in tense and perspective.	Levels of formal English to an academic standard and, essentially, free of any but the most minor of errors. Document extremely well formatted, presented and structured. No inconsistencies presented within either use of tense or perspective.
WRITTEN ASSIGNMENT Use of APA citation and referencing	Failure to follow APA style and conventions. References in bibliography that are not cited in text or references cited in text that are not in bibliography (at least three). Mistakes (at least ten) in bibliography, including references out of alphabetical order, incomplete reference information, incorrect identification of sources, incorrect sequence within individual references, and mistakes in convention.	Generally followed APA style and conventions with a few minor errors. No more than two cases of references not being cited or citations not being references. No more than five minor mistakes in bibliography. Reference list was in alphabetical order, complete reference information was provided, and only minor mistakes in convention were present such as a misplaced comma or incorrect use of italic text.	Consistently followed APA style and conventions with no errors. All citations in text were present in the bibliography and vice versa. Bibliography was correctly formatted and contained no more than two minor errors.
WRITTEN ASSIGNMENT Clarity and Structure	The text does not answer the essay question. It loses its point in tangential discussions and it remains ultimately inconclusive. The logical steps of the argumentation do not follow one another but are disconnected, the text is non-hierarchical and hard to embrace as a systematic piece - the red thread, or the line of reasoning presented. The answer is often unclear and is difficult for the reader to follow and reconstruct its logics. It lacks a clear introduction - body - conclusion structure.	The essay elaborates on the original question and answers it in a satisfactory manner - it is a well-reasoned and argued conclusion. Despite some minor problems with its argumentation flows logically from its premises to its conclusions. The order of the proposed topics and elements - introduction, body, conclusion - that constitute the author's reasoning is efficient and easy to follow for the reader. The text is well supported and does not spread itself thin treating secondary topics or losing sight of the task of answering the question.	The text answers the essay question in full with the presentation of well-structured arguments and examples. The order of its arguments is logical and rhetorically efficient. The essay is fully satisfactory and is of a level expected of a student arriving onto a master's degree.

WRITTEN ASSIGNMENT Use of literature	The use of literature does not demonstrate the balanced and critical attitude towards academic sources themselves (or the capability to make intra-disciplinary connections) that would be expected of a potential masters' student.	The essay contains critically reflections on literature as well as connections among different sources that meaningfully support the presented arguments in a manner that would be expected of a potential masters' student.	In their text, the applicant not only makes substantial and meaningful use of literature and theoretical insights, but is able to criticize, connect and extend them in order to formulate an academic answer to the essay question that goes beyond the expected level of academic literacy and critical thinking expected of a potential masters' student.

Students who score 55 points or higher within the initial selection are invited to the intake interview, details of which can be found below. In both cases the aim is to inform the students within five working days of the decision.

Intake Interview

The intake interview is typically conducted in-person for prospective students who are residents of the Netherlands and via phone/Skype for prospective students who reside outside the Netherlands. It allows the institute to assess prospective students and is assessed against the following criteria:

Criteria	0 POINTS	10 POINTS	20 POINTS
Media Awareness	The applicant is unable to talk confidently regarding the media industry and/or demonstrates a lack of general media awareness regarding recent developments.	The applicant demonstrates a reasonable level of knowledge regarding the media industry and a good level of awareness with regard to recent developments.	The applicant has a high level of media awareness and knowledge and is in touch with the latest media development.
Critical Thinking	The applicant is unable to clearly demonstrate the ability to think critically about the topics discussed.	The applicant is generally able to demonstrate the ability to think critically about the topics discussed.	The applicant demonstrates an extremely high level of critically thinking about the topics discussed.
Lucidity of Response	The applicant is unable to construct logical argumentation or is unable to give voice to their logic due to issues with their spoken English.	The applicant is able to construct logical argumentation and is generally able to give voice to their logic without any issues relating to their spoken English.	The applicant is able to construct highly logical argumentation and is easily able to give voice to their logic without any issues relating to their spoken English.
Reflection	The applicant is unable to reflect upon the questions asked and/or their own work; or is unable to reflect in a substantive manner due to issues with spoken English or English comprehension.	The applicant is able to reflect upon the questions asked and/or their own work; or is able to reflect in a generally substantive manner without issues with their spoken English or English comprehension.	The applicant is able to offer valuable reflection upon the questions asked and/or their own work. They are able to reflect in a highly substantive manner without any issues with their spoken English or English comprehension.

Motivation	The applicant is unable to elucidate upon their motivation to join the programme even when asked.	The applicant is able to offer, when prompted, additional information on their motivation to join the programme.	The applicant demonstrates a strong motivation to join the programme and is able to elucidate without the need for prompting.
-------------------	---	--	---

In addition, prospective students are given the opportunity to ask questions relating to the content, structure, and demands of the programme in order to be fully informed. Prospective students need to score 60 points or higher in the intake interview in order to be admitted to the programme.

Executive programme (on the basis of prior qualifications)

1 General

- 1 The board of examiners may in certain cases admit applicants on the basis of prior qualifications. This exclusively concerns admission of executives into the Master Media Innovation programme – applicants who have already been operating in the professional field for a considerable period of time. Prior qualifications are emphatically taken into consideration in this process.
- 2 Applicants firstly undergo the standard Master Media Innovation application process; going through an initial selection process and an intake interview.
- 3 Applicants who pass the intake interview may then file an appeal to be admitted to the programme based on recognition of prior learning (RPL) will be required to hand in a documented portfolio to the coordinator of the master's programme, after which they will submit it to the board of examiners for assessment.
- 4 The board of examiners will decide on the candidate's admissibility and notify the applicant of its decision in writing within twelve working days.
- 5 With a view to the starting date of 1 February of any academic year, applicants for the Master Media innovation degree programme who request to attend the programme on the grounds of prior qualifications (EVCs) need to submit their well-founded written request including all underlying documents before 15 January of the same academic year. Requests submitted after that date to Breda University of Applied Sciences will not be dealt with.

2 Competency domains

In order to properly assess the applicant's admissibility based on prior quality, the board of examiners has defined five competency domains within which the applicant has to demonstrate their relevant work experience in their portfolio. These five competency domains for the Master Media Innovation are:

a Research

The applicant demonstrates in their portfolio that they have skills at a bachelor's level in setting up a simple research project with regard to concepts, products, and/or corporate developments, and completing this project adequately as well as deriving useful recommendations from it.

This basically entails:

- Defining research objectives, formulating the research question, selecting the appropriate research methods for this question, executing the research, and derive recommendations and conclusions from it, all this in the appropriate manner.
- The applicant has demonstrable analytical skills.

b Management

The applicant has demonstrable skills at a bachelor's level in directing people, processes, a department and/or a company.

This basically entails:

- The applicant is able to develop project plans, to manage and evaluate projects, and to produce professional project reports.
- The applicant is able to operate in a multidisciplinary team, fulfil a directive role in this process, and communicate about this with senior officers in a professional manner.
- The applicant is able to initiate quality improvements, implement them, and to evaluate the ensuing change processes.

c Communication

The applicant is able to cooperate with others in a professional setting at bachelor's level and contribute to the development of the objectives and setup of the organisation.

This basically entails:

- The applicant is able to communicate efficiently, on all levels, in the working language (usually in English or Dutch). This concerns formulating plans and memorandums, supplying information, advice, broadening the level of support, and explaining and communicating decisions.
- The applicant is able to build networking relationships and maintain these successfully, with various stakeholders.

d Self-management

The applicant is able to continue their professional development, take the initiative, and act independently and flexibly.

This basically entails:

- The applicant is capable of reflecting on and taking responsibility for their own actions.
- The applicant displays ethical-professional behaviour towards others.
- The applicant keeps an eye on national and international developments in their professional field.

e Experience in business / media / technology

Apart from the above-mentioned competency domains, applicants may have acquired experience in one or more of the three key areas in which the Master Media Innovation operates. It is important to incorporate all relevant experience in the portfolio.

In the assessment of portfolios, applicants with a harmonious competency profile are preferred; applicants should have acquired demonstrable experience in competency domains a through d. Experience in competency domain e is recommended.

3 Portfolio with supporting evidence

To enable proper assessment, the portfolio must meet the following requirements:

- Contain a description of the applicant's relevant experience in all above-mentioned competency domains at bachelor's level, within all previous and current employment.
- Contain a description of the way in which the experience relates to the key areas of the Master Media Innovation.
- The entire document comprises at least three A4 pages, and max. five A4 pages (Times New Roman, 12 pt, line spacing 1).
- Contain a letter of recommendation from one's employer, and/or someone from applicant's immediate professional environment. The purpose of this letter is to substantiate the applicant's relevant experience and to demonstrate that the applicant is employed and experienced in the prescribed key areas and competency domains of this master's programme, at the required hbo (higher professional education) level.

General information

Notification of admittance

Within five working days following the intake interview, prospective students are informed whether or not they are admitted to the programme.

Is there a maximum number of students?

No, not applicable.

3 Master Tourism Destination Management

The management of the programme will use the following documents / conversations for the selection process:

- 1: Motivation letter
- 2: CV/Résumé and diploma(s)
- 3: Programme-specific assignment: An independent Reference check
- 4: Selection interview(s) (via Teams)

The first three items have been handed via *My online Application*.

Assignments and criteria are stated below.

1 Motivation letter

The application letter will be assessed on motivation and proficiency in the field of study, but also on the structure and style of the letter.

2 CV/Résumé and diploma(s)

The résumé will be assessed on the experience of the applicant in the field of study, amongst others the committee member will have a look at:

- the obtained bachelor's diploma(s);
- the work/work placement experience;
- international/intercultural experience;
- proficiency in English;
- participation in any additional activities and or travel experiences.

3 Programme-specific assignment: An independent Reference check

Each applicant will propose the names of two referees⁴⁷ who will receive a form on the following items: research skills, cross cultural communication skills, English proficiency skills, academic writing skills.

4 Selection interview

As a final component, prospective students that have completed assignments 1 through 3 will be invited for a first orientation interview and in case the results of this interview are sufficient or in doubt, they will be invited for a final interview. In case of insufficiency, a letter of rejection will be sent.

The following matters will be discussed during the interview:

- Why Breda University of Applied Sciences?
- Why Master Tourism Destination Management?
- Orientation to this programme
- Questions about expectations of the study programme. Future ambitions. Motivation. Their link to Tourism.
- Questions about experiences with group work
- Questions about their research experience
- Questions about their international/intercultural experiences
- Questions about their educational and work experiences
- Question about their experience with Academic writing skills
- Sharing information on the content and workload of the programme
- Testing the English-speaking skills and communication skills in general

Based on the above-mentioned documents the students will be assessed on the uploaded documents (Written) and based on the intake interview(s) (Oral). This will be graded sufficient or insufficient on 3 items, according to the schedule.

- Research skills
this is a combination of the independent reference check, research skills shown in motivation letter and resume and based on additional questions during the intake interview.

⁴⁷ At least one Academic or business e-mail address

- International and Tourism experience
this can be international and tourism experience for example in education – work placements – exchange – work experience shown in the resume and motivation letter and based on additional questions during the intake interview.
- Motivation
why a master's degree, why Tourism Destination Management, personal motivation, proactive attitude, experience with and open for group work, openminded, eager etc. based on written documents and oral conversation(s).

	Written documents	Oral conversation	Final conclusion
Research skills	SUF / INSUF	SUF / INSUF	SUF
International- and Tourism experience	SUF / INSUF	SUF / INSUF	SUF
Motivation	SUF / INSUF	SUF / INSUF	SUF

To be accepted to the programme the applicant needs to meet the following results:

- 3x Sufficient in the Final Conclusion

The 6 sub results of the Written and Oral part will be marked sufficient or insufficient:

- all sufficient = Acceptance
1 out of 6 Insufficient = Discussion Case
2 out of 6 Insufficient = Rejection

In case of "2 out of 3" insufficient regarding the written documents, students will not be invited for the intake interview(s)

- In case of a Discussion Case, additional information will be requested to come to a Final conclusion. This could be for example the thesis from the bachelor's degree, references, or an extra explanation/motivation.

General information

The procedure will take approximately 2 to 3 weeks, starting from the moment the applicant has uploaded all requested documents and the management of the master programme has been informed by the student office department assuming that the applicant (conditionally) meets the educational and English language requirements and the referees have uploaded the requested information.

Notification of admittance

The final letters of acceptance or rejection will be sent within max. 5 working days after the final interview or after having received all requested information.

Is there a maximum number of students?

No, not applicable.

4 Master Sustainable Outdoor Hospitality Management

The management of the programme will use the following documents / conversations for the selection process:

- 1: Motivation letter
- 2: CV/Résumé and diploma(s)
- 3: Programme-specific assignment: An independent Reference check
- 4: Selection interview(s) (via Teams)

The first three items have been handed via *My online Application*.

Assignments and criteria are stated below.

1 Motivation letter

The application letter will be assessed on motivation and proficiency in the field of study, but also on the structure and style of the letter.

2 CV/Résumé and diploma(s)

The résumé will be assessed on the experience of the applicant in the field of study, amongst others the committee member will have a look at:

- the obtained bachelor's diploma(s);
- the work/work placement experience;
- international/intercultural experience;
- proficiency in English;
- participation in any additional activities and or travel experiences.

3 Programme-specific assignment: An independent Reference check

Each applicant will propose the names of two referees⁴⁸ who will receive a form on the following items: research skills, cross cultural communication skills, English proficiency skills, academic writing skills.

4 Selection interview

As a final component, prospective students that have completed assignments 1 through 3 will be invited for a first orientation interview and in case the results of this interview are sufficient or in doubt, they will be invited for a final interview. In case of insufficiency, a letter of rejection will be sent.

The following matters will be discussed during the interview:

- Why this triple degree Master Sustainably Outdoor Hospitality Management?
- Orientation to this programme
- Questions about expectations of the study programme. Future ambitions. Motivation. Their link to Camp Resorts.
- Questions about experiences with group work
- Questions about their research experience
- Questions about their international/intercultural experiences
- Questions about their educational and work experiences
- Question about their experience with Academic writing skills
- Sharing information on the content and workload of the programme
- Testing the English-speaking skills and communication skills in general

Based on the above-mentioned documents the students will be assessed on the uploaded documents (Written) and based on the intake interview(s) (Oral). This will be graded sufficient or insufficient on 3 items, according to the schedule.

- Research skills
this is a combination of the independent reference check, research skills shown in motivation letter and resume and based on additional questions during the intake interview.
- International and Tourism/Camp Resort experience
this can be international and camp resort/ tourism experience for example in education – work

⁴⁸ At least one Academic or business e-mail address

placements – exchange – work experience shown in the resume and motivation letter and based on additional questions during the intake interview.

- Motivation
why a master's degree, why Sustainable Outdoor Hospitality Management, personal motivation, proactive attitude, experience with and open for group work, openminded, eager etc. based on written documents and oral conversation(s).

	Written documents	Oral conversation	Final conclusion
References and research skills	SUF / INSUF	SUF / INSUF	SUF
International- and Camp Resort/Tourism experience	SUF / INSUF	SUF / INSUF	SUF
Motivation	SUF / INSUF	SUF / INSUF	SUF

To be accepted to the programme the applicant needs to meet the following results:

- 3x Sufficient in the Final Conclusion

The 6 sub results of the Written and Oral part will be marked sufficient or insufficient:

- all sufficient = Acceptance
1 out of 6 Insufficient = Discussion Case
2 out of 6 Insufficient = Rejection

In case of "2 out of 3" insufficient regarding the written documents, students will not be invited for the intake interview(s)

- In case of a Discussion Case, additional information will be requested to come to a Final conclusion. This could be for example the thesis from the bachelor's degree, references, or an extra explanation/motivation.

General information

The procedure will take approximately 2 to 3 weeks, starting from the moment the applicant has uploaded all requested documents and the management of the master's programme (in charge of the intake process) has been informed by the student office department assuming that the applicant (conditionally) meets the educational and English language requirements and the referees have uploaded the requested information.

Notification of admittance

The final letters of acceptance or rejection will be sent within max 5 working days after the final interview or after having received all requested information.

Is there a maximum number of students?

No, not applicable.

5 Master International Supply Chain Management

Selection criteria

The following selection criteria are applicable⁴⁹:

- Motivation letter with CV including references. Based on that, interviews are held in which will be tested if there is a match in terms of personal affinity with supply chain management, professional experience (work placements, jobs, etc.) in the field of logistics and supply chain, motivation for the master's programme and competences that meet the characteristics and demands of the master's programme.
- Educational career: participation in honours programmes, talent programmes or extra-curricular activities during the bachelor period, having successfully completed a master's programme, different professional or academic course certificates, or possible other educational achievements. Weighted average score of the post-propaedeutic phase of the previous bachelor education.
- Assessment of study guide documentation of the previously received bachelor programme on Management Accounting and Finance, and on Mathematics, Statistics and Operations Research.

The items above have been handed via *My Online Application*.

In total 65 points are required for passing the selection criteria. This can be obtained as follows:

Selection criteria	Score (converted to) Dutch marking system	Weight
Personal affinity with supply chain management	1 (min) -10 (max)	15%
Professional experience (work placements, jobs, etc.)	1 (min) -10 (max)	15%
Motivation	1 (min) -10 (max)	15%
Competencies (related to the master's programme)	1 (min) -10 (max)	15%
Educational career (honours/talent programme or other distinctions)	1 (min) -10 (max)	10%
Prior Study Programme in Management Accounting & Finance	1 (min) -10 (max)	10%
Prior Study Programme in Management Mathematics, Statistics and Operations Research	1 (min) -10 (max)	10%
Weighted average score post-propaedeutic phase	< 6.0 = 0 6.0 – 6.9 = 4 7.0 – 8.0 = 7 > 8.0 = 10	10%

General information

Minimum scores for admittance

In total 65 points are required for passing the selection criteria.

Notification of admittance

Within three working days following the intake interview, prospective students are informed whether or not they are admitted to the programme.

Is there a maximum number of students?

Yes, a maximum of 40 students.

⁴⁹ If applicable, the results of master programmes are included as well.

Procedure in case of more suitable students

BUas will create a waiting list once the maximum of 40 placements is reached. If places fall free, whatever the reason, candidates on the waiting list will be allowed into the master in chronological order⁵⁰.

⁵⁰ The date on which a student hands in the application package via My Online Application determines the sequence on the waiting list.

6 Master Strategic Events Management

The intake procedure within the Master Strategic Events Management consists of two phases; an initial selection phase in which the handed in documents are assessed and an intake interview (conducted in person, or remotely, as a follow-up to the initial selection phase for promising candidates).

Phase 1: Initial selection

The following items, handed via *My online application*, will be used for the intake procedure:

1. CV/Résumé
2. Motivation letter
3. Programme-specific assignment: intake questions

These items will be assessed on the following points:

	-	±	+
Previous education	No relevant bachelor's degree	A similar bachelor's degree (see right column)	A bachelor's degree in leisure, events, tourism, sports, hotel, facility, culture, business or economics
Relevant experience	No experience in the events industry	A few years of work experience in another field / Has done work placements in the events industry within the bachelor's programme	A few years of work experience in the events industry
Motivation (drive & vision on own development)	Poor motivation for 'Events Management'	Motivation for 'Events Management' is not sufficiently founded	A well-founded motivation for 'Events Management'
Research	Has no research skills	Has some experience in research but not proven to be at a bachelor level	Can prove to have research skills at a bachelor level
Others (i.e. relevant skills, hobbies or interests)	Extra credits can be earned here		

Besides the items mentioned above the following points should also be included in the motivation letter. These will be used as input for the intake interview.

1. Current/future job (needed for the duration of the programme)
 2. Vision on the events industry
 3. Motivation
- Students with a negative (-) score on previous education are already rejected by Student Office, so they will not be invited for an intake interview.

Phase 2: Pitch and intake interview

The intake interview is typically conducted in-person for prospective students who are residents of the Netherlands and via Teams for prospective students who reside outside the Netherlands.

The intake session consists of both a short pitch and an intake interview.

An industry representative will be invited to join the pitch and intake interviews in an advisory role.

The pitch and intake interview allows the institute to assess prospective students and to determine whether they are able to adequately demonstrate:

- 1) Having a job in the events industry. In case they do not have a job yet: show they put effort in finding one.
- 2) Awareness and vision on developments in the events industry.
- 3) Relevant experience in the events industry.
- 4) Capability for reflection and critical thinking required by a master's programme.
- 5) Ability to elucidate upon their motivation for joining the programme
- 6) Satisfactory levels of English communication skills.

The intake assessment panel discuss each student's documentation portfolio (CV, motivation letter, and intake questions) as well as performance during the pitch and intake interview to make the final decision.

The final decision is based upon the approval of the submitted documentation and the performance during the pitch and interview.

Mandatory

Being employed in the events industry (job or traineeship) for the duration of the programme. This job should start 1 September at the latest.

General information

Minimum scores for admittance

To be admitted to the programme, candidates must have a sufficient score on all six points mentioned above.

Notification of admittance

After the interview, the candidate will be informed within three weeks whether they are allowed into the master's programme. If the student is allowed into the programme, the applicant will receive an official admission letter.

Within three weeks following the intake interview, prospective students are informed whether or not they are admitted to the programme.

Is there a maximum number of students?

No.

7 Master Imagineering

The following items, handed via *My online Application*, will be used for the intake procedure:

1. CV/Résumé
2. Motivation letter
3. Programme-specific assignment: intake questions

Intake interview

Prospective students will be invited for an intake interview to determine if they meet the relevant criteria and determine if they are sufficiently motivated, have sufficient perseverance, and if their personal circumstances are of such a nature that it can be expected they will contribute to completing a master's programme.

The following subjects will be dealt with during the intake interview:

- previous education
- (international) experience (studies, work, exchange, other purpose)
- prior research experience
- interests
- motivation
- personal profile
- communication/collaboration skills
- creativity and innovation
- the 5 meta-competencies of the Master Imagineering: Transparency, Reflection, Inspiration, Appreciation and Leadership (TRIAL)

The intake coordinator discusses each student's documentation portfolio (CV, motivation letter and intake questions) as well as performance during the intake interview in order to make the final decision.

The final decision is based upon the approval of the documentation by Student office and the performance during the interview where the following elements are scored:

- motivation – 40 points
- personal profile in relation to the Master Imagineering context and content – 40 points
- competencies and skills – 20 points

A candidate can receive a maximum of 100 points, whereby 55 and above are sufficient for them to be admitted.

General information

Notification of admittance

Within five working days after the intake interview the student is informed whether they are admitted to the programme.

If not approved: the applicant will be turned down and may be referred to a pre-master's or another master's programme at Breda University of Applied Sciences.

If decisive intake interview is positive: the applicant will receive an official admission letter.

Is there a maximum number of students?

No, not applicable.

8 Master of Science Leisure and Tourism Studies (academic master)

The following items, handed via *My online application*, will be used for the intake procedure:

- 1: Diploma(s) and curriculum vitae
- 2: English test (if applicable)
- 3: Motivation letter
- 4: Programme-specific assignment: Intake assignment Master Leisure and Tourism Studies

Assignments and criteria are stated below.

1 Diploma(s) and curriculum vitae

The curriculum vitae will be assessed on the experience of the applicant in the field of study, including the obtained bachelor's diploma(s).

2 English test scores

See the website for English language requirements.

3 Motivation letter

The application letter will be assessed on motivation and proficiency in the field of study.

4 Programme-specific assignment: Intake assignment

The intake assignment will be assessed on evidence of fundamental skills and knowledge in the area of quantitative and qualitative academic research methods, theoretical knowledge in the area of leisure and tourism studies (obtained in an academic bachelor's programme), and academic skills in reading and writing. Therefore, the assignment contains three questions related to the knowledge and skills necessary to smoothly follow the academic master's programme. These questions are:

- a. Could you please attach a summary of your bachelor thesis, including the main research question, objectives, relevance's, theoretical framework, methods and techniques used, results, and conclusion/discussion ('research cycle')? In case you haven't finished your bachelor's thesis yet, could you please already give a provisional summary? If writing a bachelor's thesis wasn't an obliged course of your academic bachelor's programme, in which other course(s) did you execute the whole research cycle (including defining a main research question, objectives, relevance, theoretical framework, methods and techniques used, results, and conclusion/discussion)? Please, attach a summary of this course in which you describe the components of the executed research cycle.
- b. What kind of qualitative and/or quantitative research methods have you used in your academic bachelor's programme study process? Are you familiar and can you work with SPSS?
- c. Which academic knowledge do you have about/of Leisure and Tourism Studies?

Most important criterion to enter the academic master's programme is that the prospective student can work with the statistical program SPSS and has practical skills to perform advanced analyses in this program (see a, b + diploma). A second criterion is that the prospective student has obtained academic knowledge of related field(s) of study, such as leisure, tourism, culture, events, media, sports, communication, creativity and urban development (see a, c + diploma), in their academic bachelor's programme. A third criterion is that the prospective student has (sufficient) skills in academic reading and writing (e.g. a thesis, paper, essay).

Based on evidence collected in steps 3 and 4, in particular related to the three criteria described before, the programme director of the academic pre-master's programme and Master Leisure and Tourism Studies will decide to welcome the applicant in the master's programme. Sometimes a prospective master's student is advised to take notice of additional readings and/or research methods before the start of the academic master's programme. It is also possible that a prospective

student is advised to follow first the pre-master's programme to eliminate more serious deficiencies in knowledge and skills.

General information*Pre-master's programme*

A student who has passed the pre-master's programme is not obliged to follow the intake procedure. For this student, the conditions to enter the academic master's programme are mentioned in the Application and Enrolment Regulations.

Notification of admittance

Within five working days following the intake assessment, prospective students are informed whether or not they are admitted to the programme.

Is there a maximum number of students?

No, not applicable.

Appendix 8 Overview of extra study costs

Overview of study costs for BUas degree programmes 2024-2025

The costs below are an estimate.
