Assessment Plan 2025-2026

CREATING MEANINGFUL EXPERIENCES

Introduction

Introduction to the Assessment Plan for the Academy of Hotel and Facility Management 2025-2026

The Assessment Plan is an integral part of the Teaching and Exam Regulations (TER) for the academic year 2025-2026 at the Academy of Hotel and Facility Management (AHF). This document provides a comprehensive overview of the various assessments that students will undertake throughout their study program.

The plan details the types of assessments, the number of credits each assessment carries, the type of value assigned (e.g., grade or pass/fail), the minimum required grades, and the weight of each assessment in the overall evaluation. This structured approach ensures transparency and clarity, helping students understand the expectations and requirements for successful completion of their courses.

The Assessment Plan is organized into the following categories:

- **Hotel Management and Facility Management:** This section covers the specific assessments related to each field, ensuring that students are evaluated on relevant competencies and skills.
- **Tracks:** The plan is further divided into three distinct tracks to cater to the diverse educational backgrounds of the students:
 - **Regular track (Track 1):** Designed for students following the standard curriculum.
 - **Pre-university track (Track 2):** Tailored for students who have completed pre-university education.
 - **MBO-HBO track (Track 3):** For students transitioning from vocational (MBO) to higher professional education (HBO).

Additionally, the plan distinguishes between students who started their studies in 2024 or earlier and those who commenced in 2025. This differentiation ensures that all students are assessed according to the regulations and standards applicable to their cohort.

Since parts of the program are offered on an alternating basis, the sequence in which the various courses are followed may differ. This flexibility accommodates the diverse needs and schedules of the students, ensuring that all required competencies are met regardless of the order in which courses are taken.

The Assessment Plan serves as a valuable guide throughout the academic journey, providing clear insights into the evaluation process and helping students achieve their educational goals.

1.1 Practical exercises and attendance requirement

Within the education system, there may be one or more study units that have the status of 'practical exercise'. Attendance may be required for a practical exercise in the following cases:

- The examiner can only assess the learning process or progress of the learning activity through observation.
- The student is dependent on the personal presence of fellow students and vice versa for their learning process or progress of the learning activity.
- The student is dependent on interaction with representatives of the hotel or facility management field for their learning process or progress of the learning activity.

The study units for which 'practical exercise' is indicated as YES in the study guide column have an attendance requirement and are listed below.

They may seek advice from the dean of the program. Depending on the evaluation, it will be decided whether the internship needs to be repeated. The potential new internship will start in the next internship period.</p>

If attendance is part of the assessment, the student's attendance will be evaluated at the level of a partial exam. When the student has been insufficiently present and/or insufficiently prepared and/or has not sufficiently participated during the learning activity, the student does not meet the requirement and will not receive a 'Pass'. The student's attendance is recorded in the Digital Learning Environment, where the content and criteria for the additional assignment per study unit are also communicated.

Participation		Pass/Fail	5.5	

Explanation:

For all the Core Courses, English and Second Foreign Language, Sibelicious and Capstone Project, the credits for the courses of each of these components are granted, if:

- The component consists of parts of tests: the minimum mark of each part of test must be at least a 4.5 and the weighted average of the different parts of tests must be at least a 5.5 ($\mu \geq 5.5$).
- The component consists of only one test: the minimum mark for this test must be at least a 5.5.

For MDP, Service Points, and Study Trip, the credits of each of these components are awarded if the component has been completed with a pass ('Voldaan' or 'VD' in Dutch).

Compensation in regular 4-year programme B Hotel Management:**Cohorts of 2021 and later (entry in September 2021 and later in propaedeutic phase)**

The student is allowed, for a total of 8 ECS, to earn a 5 (5.0 – 5.4) for Core Courses, English, and Second Foreign Language, provided that the student has a weighted average (weight based on ECS credits) of 5.5 on the total of Core Courses, English, and Second Foreign Language.

Cohorts of 2020 and earlier

The student is allowed, for a total of 6 ECS, to earn a 5 (5.0 – 5.4) for Core Courses, English, and Second Foreign Language, provided that the student has a weighted average (weight based on ECS credits) of 5.5 on the total of Core Courses, English, and Second Foreign Language.

For MDP, Graduation Preparation, and Study Trip, the credits for each of these components are awarded if the component has been completed with a pass ('Voldaan' or 'VD' in Dutch).

2.1.4 Graduation phase - Hotel Management - Track 1

The following entry conditions apply to the graduation phase:

- Maximum permitted number of non-earned ECS credits in Main Phases I and II is 8 ECS credits.
- Graduation Preparation (2 ECS credits) has been completed successfully.

Explanation:

The credits for the component of Personalisation are awarded if:

- The component consists of parts of tests: the mark of each part of test must be at least a 4.5 and the weighted average of the different parts of tests must be at least a 5.5 ($\mu \geq 5.5$).
- The component consists of only one test: the mark for this test must be at least a 5.5

The credits for the Bachelor's Thesis (including defence presentation) are awarded if the mark is at least a 5.5 (≥ 5.5).

The student will only be allowed to proceed to the defence presentation the moment when he has received a GO on the basis of the assessment form for the Bachelor's Thesis (GO / NO GO report).

The defence presentation is linked to the component of 'Bachelor's Thesis'. If a student chooses to first do the component of 'Bachelor's Thesis' and then the component of 'Personalisation', it may happen that this student has already completed their Bachelor's Thesis and defence presentation but still has to earn the 30 ECS credits

for 'Personalisation'. In other words, a positive defence presentation does not necessarily mean that a student has also fully completed the graduation phase. The defence presentation is merely regarded as a successful completion of the component of 'Bachelor's Thesis'.

3 Facility Management cohort 2025

3.1 Practical exercises and attendance requirement

Within the education system, there may be one or more study units that have the status of 'practical exercise'. Attendance may be required for a practical exercise in the following cases:

- The examiner can only assess the learning process or progress of the learning activity through observation.
- The student is dependent on the personal presence of fellow students and vice versa for their learning process or progress of the learning activity.
- The student is dependent on interaction with representatives of the hotel or facility management field for their learning process or progress of the learning activity.

The study units for which 'practical exercise' is indicated as YES in the study guide column have an attendance requirement and are listed below.

Operational international placement	2FM International placement	<p>For the operational international placement in the main phase, a 100% attendance requirement applies.</p> <p>When this requirement is not met, the following rules apply:</p> <p>Operational international internship: make up for the missed days in consultation with the internship company and company coach.</p> <p>If the student stops before the end date of the internship contract, the reasons will be evaluated by the industry office and the examination committee. They may seek advice from the dean of the program. Depending on the evaluation, it will be decided whether the internship needs to be repeated. The potential new internship will start in the next internship period.</p>

If attendance is part of the assessment, the student's attendance will be evaluated at the level of a partial exam. When the student has been insufficiently present and/or insufficiently prepared and/or has not sufficiently participated during the learning activity, the student does not meet the requirement and will not receive a 'Pass'. The student's attendance is recorded in the Digital Learning Environment, where the content and criteria for the additional assignment per study unit are also communicated.

Explanation:

For all courses, including Skills and English, the credits for the course are granted, if:

- The weighted average of the different parts of tests must be at least a 5.5 ($\mu \geq 5.5$). Please refer to the above tables for the minimum mark for each of the components of the module.

Compensation in Regular 4-year programme:

No compensation between modules is allowed, students need to obtain all 60 ECs in the propaedeutic phase to be allowed to continue their studies.

Explanation:

For Core Courses, Graduation Preparation and English, course credit for each of these components will be granted if:

- The component consists of parts of tests: the mark for each part of a test must be at least a 4.5 and the weighted average of the various parts of tests must be at least a 5.5 ($\mu \geq 5.5$).
- The component consists of only one test: the mark for this test must be at least a 5.5.

For MDP and Study Trip, the credits for each of these components will be granted if the component has been completed with a pass ('Voldaan' or 'VD' in Dutch).

3.3.2 Graduation phase – Facility Management – Track 2

The following entry conditions apply to the graduation phase:

- Maximum permitted number of non-earned ECS credits in Main Phases I and II is 8 ECS credits.
- Graduation Preparation has been completed successfully.

Explanation:

The credits for the component of Personalisation are awarded if:

- The component consists of parts of tests: the mark of each part of test must be at least a 4.5 and the weighted average of the different parts of tests must be at least a 5.5 ($\mu \geq 5.5$).
- The component consists of only one test: the mark for this test must be at least a 5.5

The credits for the Bachelor's Thesis (including defence presentation) are awarded if the mark is at least a 5.5 (≥ 5.5).

The student will only be allowed to proceed to the defence presentation the moment when this student has received a GO on the basis of the assessment form for the Bachelor's Thesis (GO / NO GO report).

The defence presentation is linked to the component of 'Bachelor's Thesis'. If a student chooses to first do the component of 'Bachelor's Thesis' and then the component of 'Personalisation', it may happen that this student has already completed their Bachelor's Thesis and defence presentation but still has to earn the 30 ECS credits for 'Personalisation'. In other words, a positive defence presentation does not necessarily mean that a student has also fully completed the graduation phase. The defence presentation is merely regarded as a successful completion of the component of 'Bachelor's Thesis'.

Explanation:

For the Core Courses, Graduation Preparation and English, the credits for the courses of each of these components are awarded, if:

- The component consists of parts of tests: the mark of each part of test must be at least a 4.5 and the weighted average of the different parts of tests must be at least a 5.5 ($\mu \geq 5.5$).
- The component consists of only one test: the mark for this test must be at least a 5.5.

For MDP, Study Trip, and Graduation Preparation, the credits for each of these components are awarded if the component has been completed with a pass ('Voldaan' or 'VD' in Dutch).

4.2.4 Graduation phase- Facility Management – Track 2

The following entry conditions apply to the graduation phase:

Bachelor thesis defence		Grade	5.5	100%

Explanation:

The credits for the component of Personalisation are awarded if:

- The component consists of parts of tests: the mark of each part of test must be at least a 4.5 and the weighted average of the different parts of tests must be at least a 5.5 ($\mu \geq 5.5$).
- The component consists of only one test: the mark for this test must be at least a 5.5

The credits for the Bachelor's Thesis (including defence presentation) are awarded if the mark is at least a 5.5 (≥ 5.5).

The student will only be allowed to proceed to the defence presentation the moment when he has received a GO on the basis of the assessment form for the Bachelor's Thesis (GO / NO GO report).

The defence presentation is linked to the component of 'Bachelor's Thesis'. If a student chooses to first do the component of 'Bachelor's Thesis' and then the component of 'Personalisation', it may happen that this student has already completed their Bachelor's Thesis and defence presentation but still has to earn the 30 ECS credits for 'Personalisation'. In other words, a positive defence presentation does not necessarily mean that a student has also fully completed the graduation phase. The defence presentation is merely regarded as a successful completion of the component of 'Bachelor's Thesis'.
